

# **Criação de Usuários e Unidades Organizacionais**

**Disciplina:** Administração e Segurança de Sistemas de Computadores

**Curso:** Licenciatura em Engenharia Informática

**Docentes:** Doutor Eng. Lourino Chemane, Engra. Ivone Cipriano e eng. Délcio Chadreca  
DEEL, Faculdade de Engenharia, UEM

# Usuários e Computadores do AD

The screenshot shows the Windows Server Manager interface. The top navigation bar includes 'Server Manager' and 'Dashboard'. The left sidebar lists 'Dashboard', 'Local Server', 'All Servers', 'AD DS', 'DNS', and 'File and Storage Services'. The main area displays a 'WELCOME TO SERVER MANAGER' section with a 'QUICK START' list: 1. Configure this local server, 2. Add roles and features, 3. Add other servers to manage, 4. Create a server group, and 5. Connect this server to cloud. Below this is a 'ROLES AND SERVER GROUPS' section showing 'AD DS' and 'DNS' roles, each with a 'Manageability' status indicator. The 'Tools' menu is open on the right, listing various administrative tools such as 'Active Directory Administrative Center', 'Active Directory Users and Computers', 'ADSI Edit', 'Component Services', 'Computer Management', 'Defragment and Optimize Drives', 'DNS', 'Event Viewer', 'Group Policy Management', 'iSCSI Initiator', 'Local Security Policy', 'Microsoft Azure Services', 'ODBC Data Sources (32-bit)', 'ODBC Data Sources (64-bit)', 'Performance Monitor', 'Resource Monitor', 'Security Configuration Wizard', 'Services', 'System Configuration', 'System Information', and 'Task Scheduler'.
