

Criação de pasta Base (*Home Folder*) para os usuários

Disciplina: Administração e Segurança de Sistemas de Computadores

Curso: Licenciatura em Engenharia Informática

Docentes: Doutor Eng. Lourino Chemane, dr. Covele e eng. Délcio Chadreca
DEEL, Faculdade de Engenharia, UEM

Agenda

- Script de LogOn
- Home Folder
- Criacao de Grupo de Usuarios
- GPO
- Mapeamento do Desktop e MyDocument

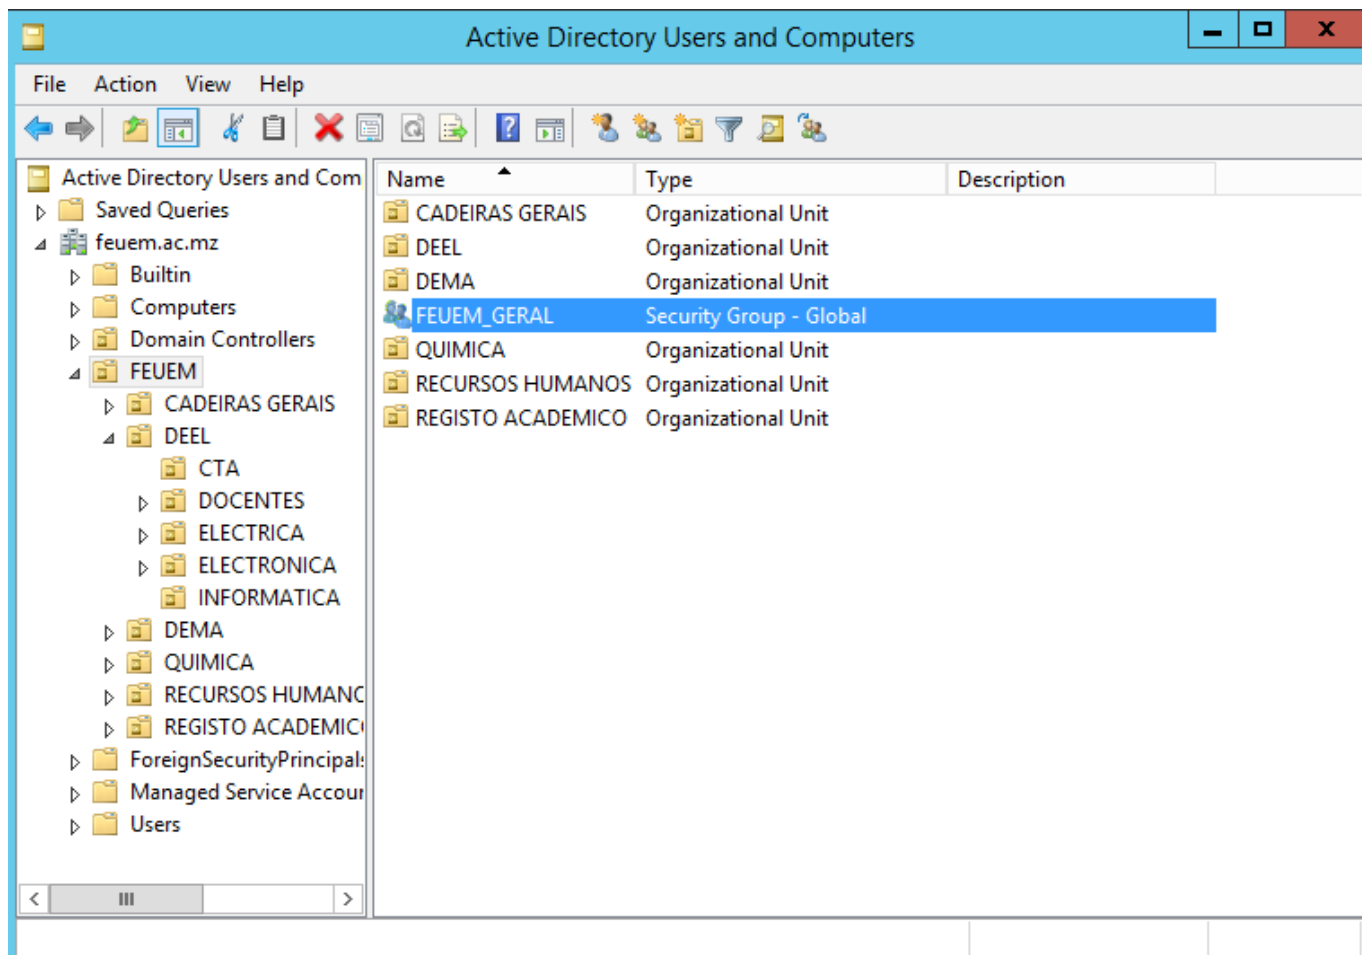

Script de Logon

- E uma sequencia de comandos que é executado quando o usuário faz o logon no computador.
- Quando o cliente coloca o *username* e password o computador direciona-se um ficheiro denominado script e executa o que foi definido no ficheiro.
- Script pode ser um arquivo com extensao .bat ou de linguagem de programacao vsb.script

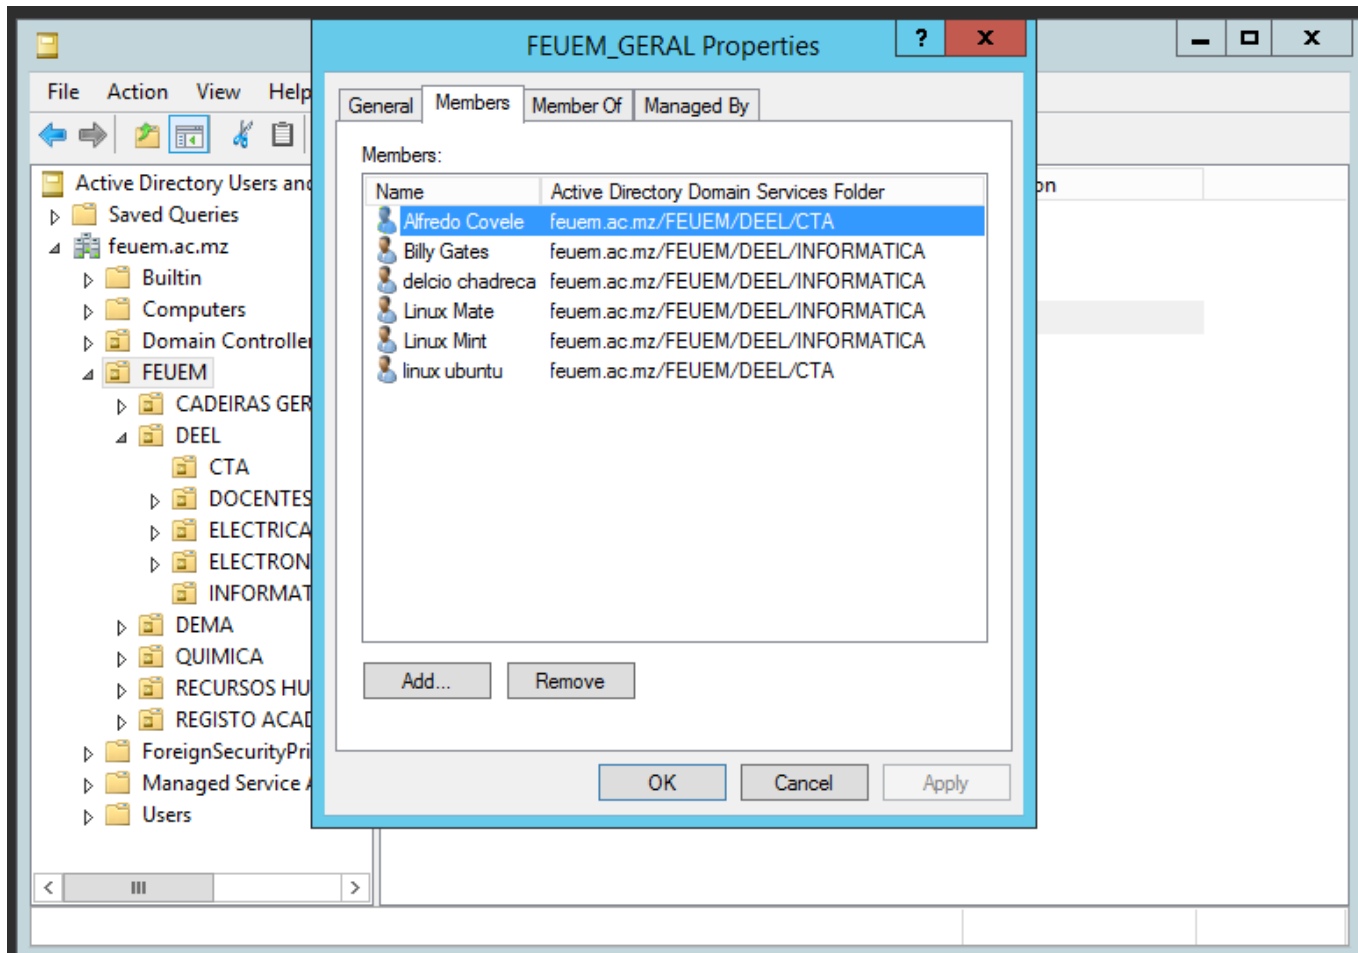

Pasta Home

- “Pasta base” é uma pasta localizada no servidor que será mapeada automaticamente na estação de cada cliente que permite o usuário salvar a sua informação no servidor. A pasta base ou *home folder*, está associada ao perfil do usuário.

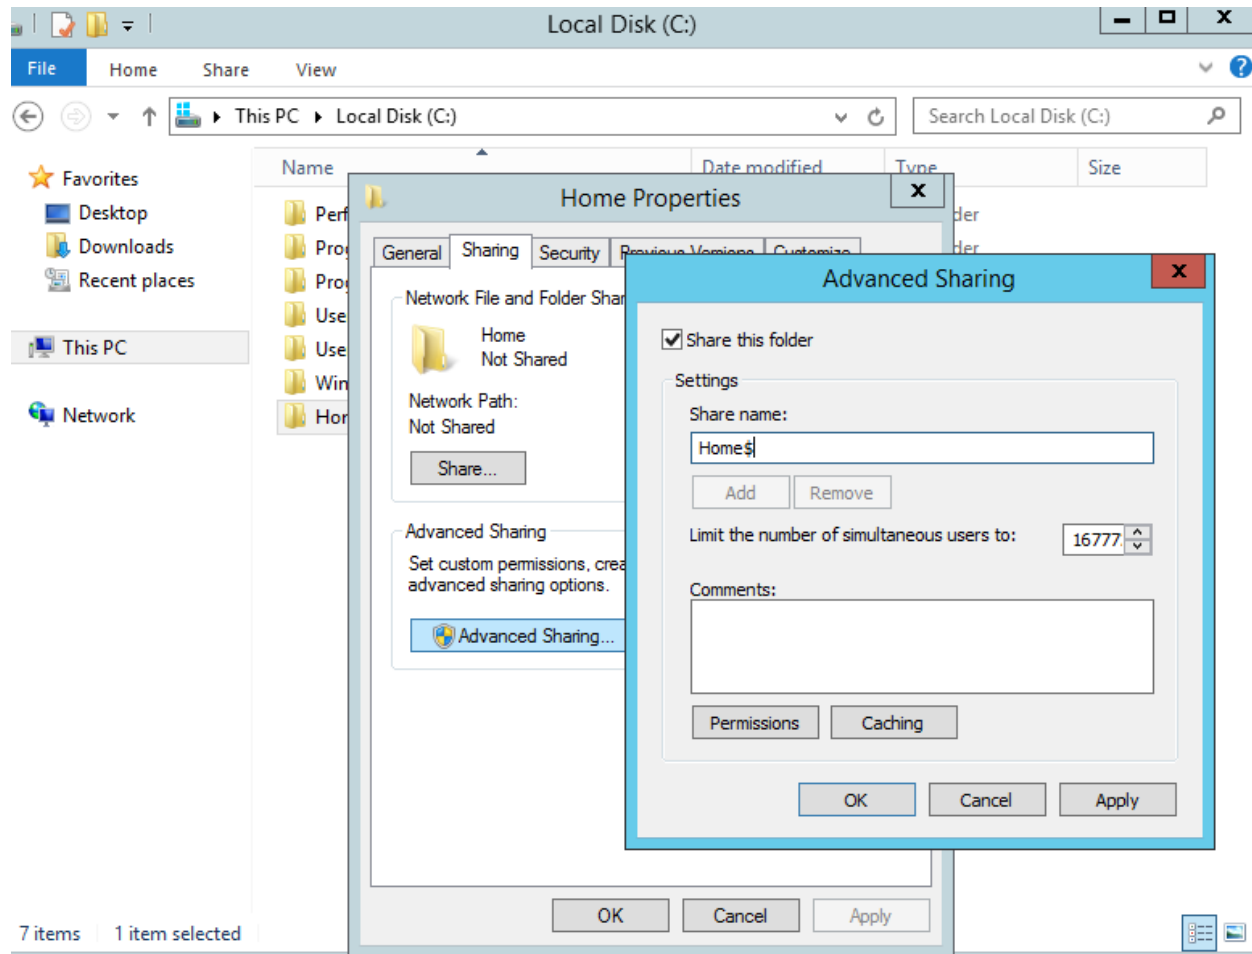

Criação de um Grupo Geral onde todos os Usuários da Empresa pertencem

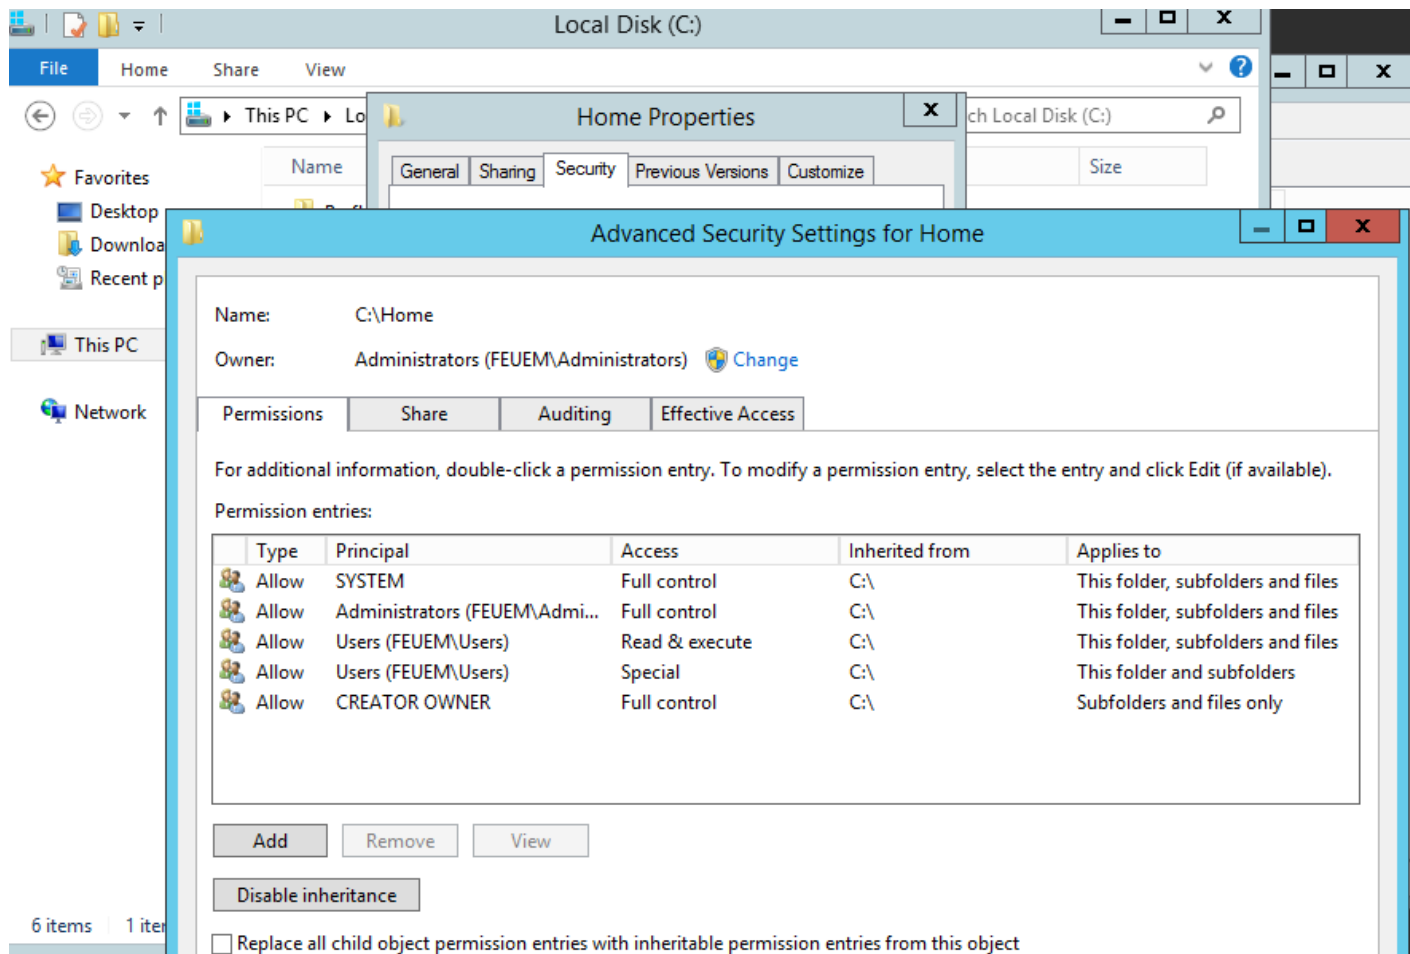

Usuários que Pertencem ao Grupo FEUEM_GERAL

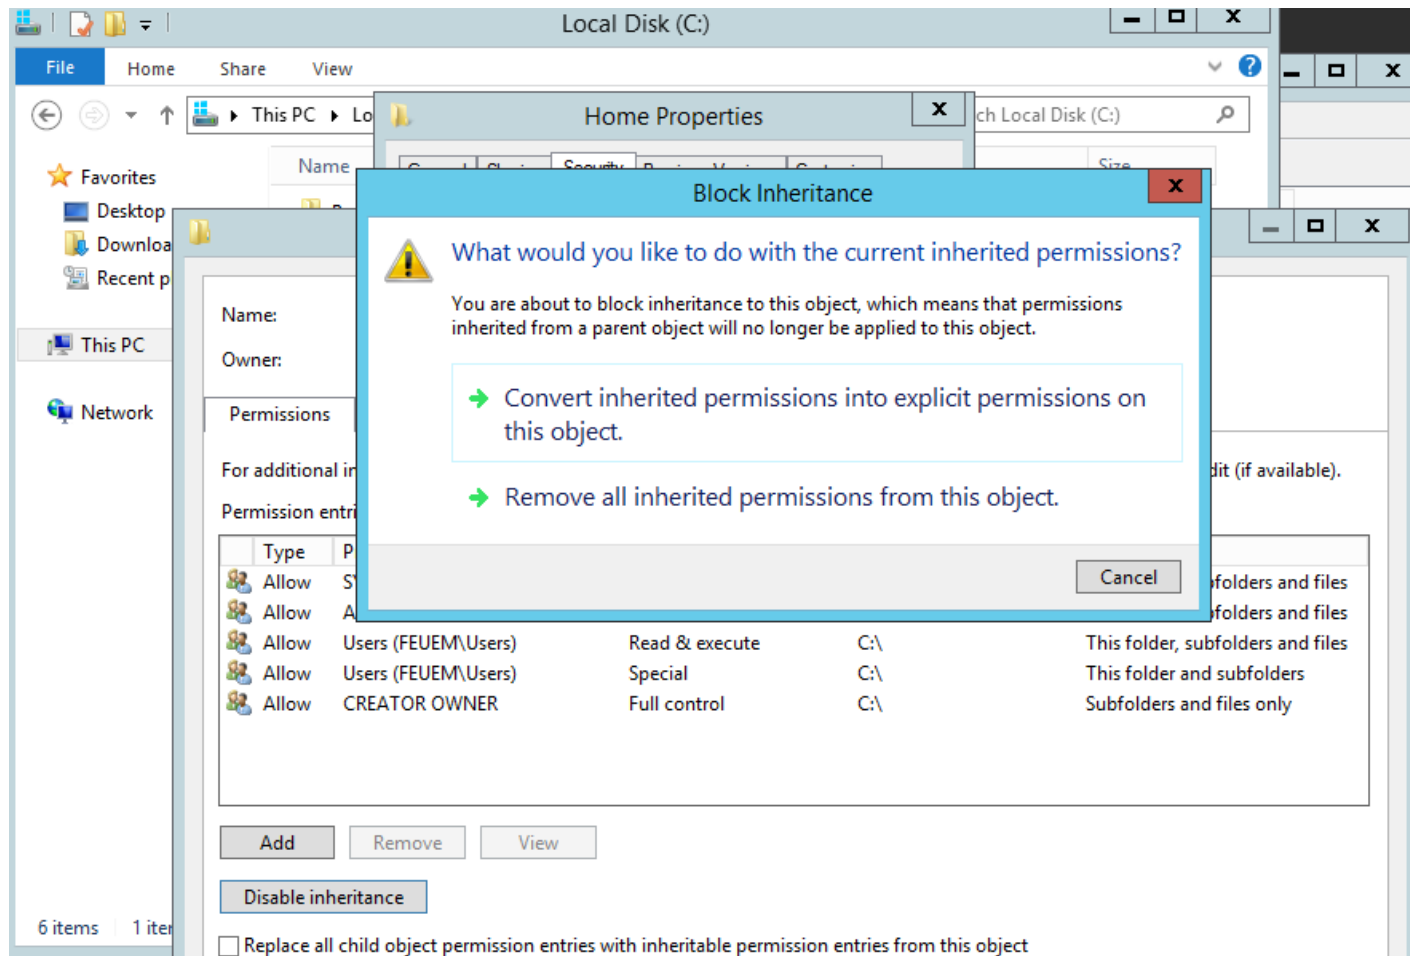

Partilha da Pasta Home\$

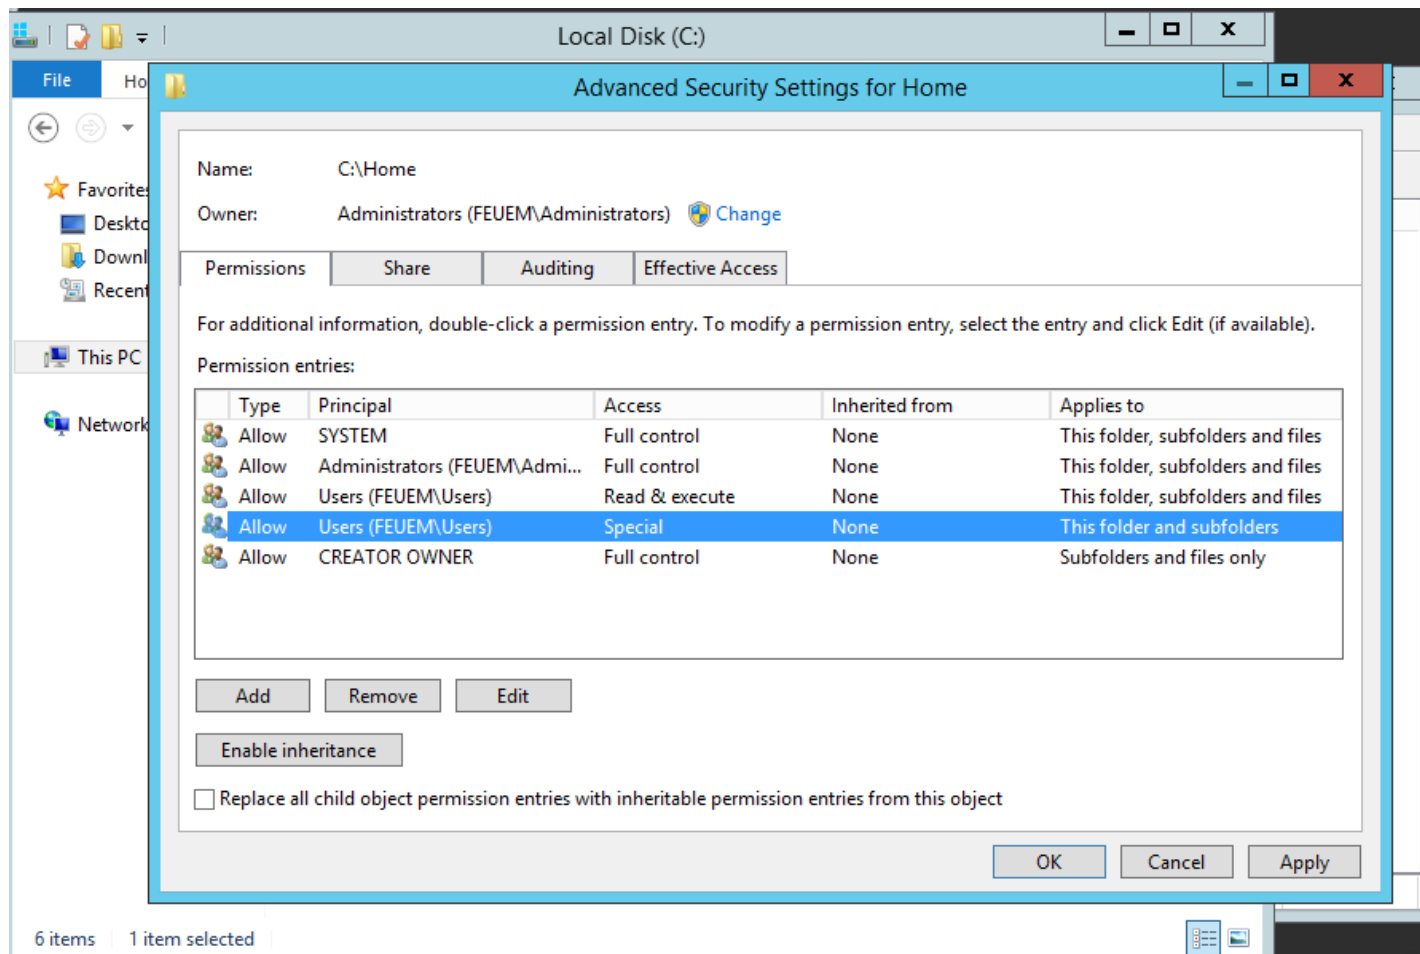

Configuração de Segurança

Desabilitar a Hierarquia e Converter de Hierarquia

Remover os dois Grupos de Usuários

Adicionar Permissões

Permission Entry for Home

Principal: [Select a principal](#)

Type:

Applies to:

Basic permissions:

- ☐ Full control
- ☐ Modify
- ☒ Read & execute
- ☒ List folder contents
- ☒ Read
- ☐ Write
- ☐ Special permissions

[Show advanced permissions](#)

☐ Only apply these permissions to objects and/or containers within this container

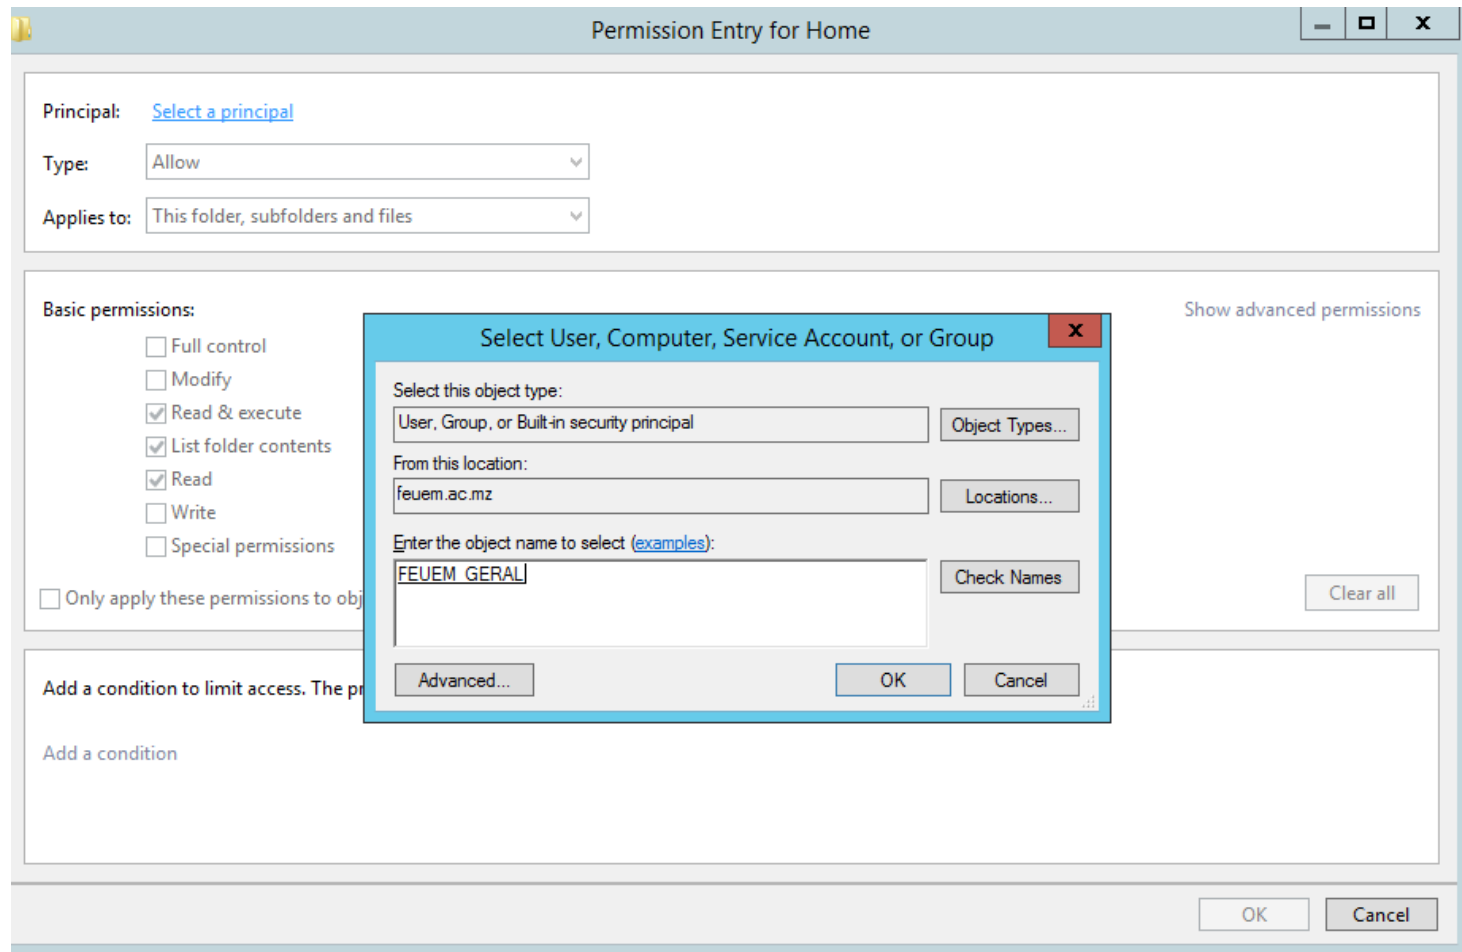

[Clear all](#)

Add a condition to limit access. The principal will be granted the specified permissions only if conditions are met.

Add a condition

OK Cancel

Selecionar o Grupo Principal dos Usuarios

Verificar Permissoes Avancadas

Principal:

FEUEM_GERAL (FEUEM\FEUEM_GERAL) [Select a principal](#)

Type:

Allow

Applies to:

This folder only

Basic permissions:

☐ Full control

☐ Modify

☒ Read & execute

☒ List folder contents

☒ Read

☐ Write

☒ Special permissions

[Show advanced permissions](#)

☐ Only apply these permissions to objects and/or containers within this container

Clear all

Add a condition to limit access. The principal will be granted the specified permissions only if conditions are met.

Definição das Configurações Avançadas

Principal: FEUEM_GERAL (FEUEM\FEUEM_GERAL) [Select a principal](#)

Type:

Applies to:

Advanced permissions: [Show basic permissions](#)

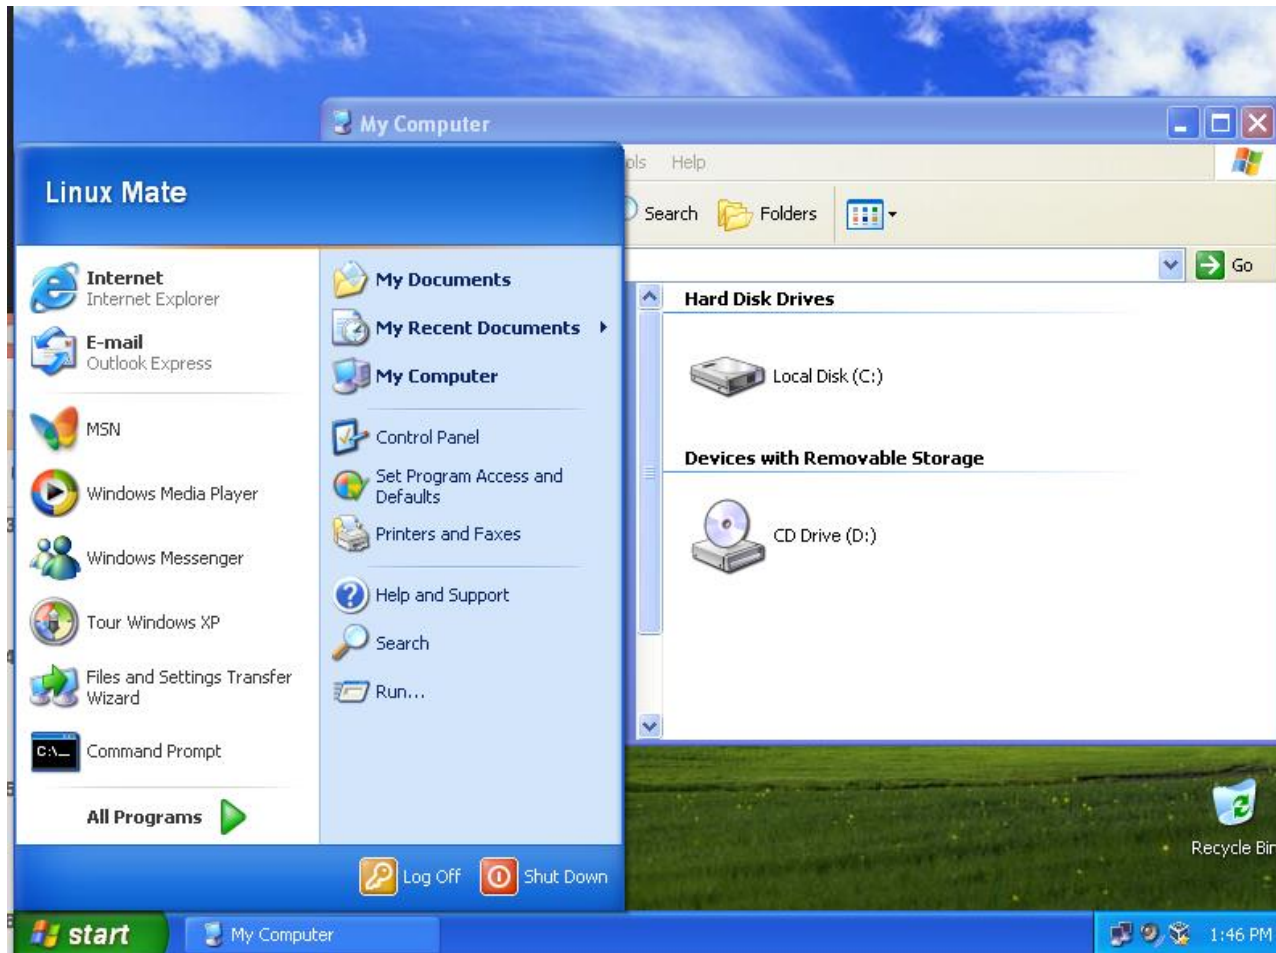

<input type="checkbox"/> Full control	<input type="checkbox"/> Write attributes
<input checked="" type="checkbox"/> Traverse folder / execute file	<input type="checkbox"/> Write extended attributes
<input checked="" type="checkbox"/> List folder / read data	<input type="checkbox"/> Delete subfolders and files
<input checked="" type="checkbox"/> Read attributes	<input type="checkbox"/> Delete
<input checked="" type="checkbox"/> Read extended attributes	<input checked="" type="checkbox"/> Read permissions
<input type="checkbox"/> Create files / write data	<input type="checkbox"/> Change permissions
<input checked="" type="checkbox"/> Create folders / append data	<input type="checkbox"/> Take ownership

☐ Only apply these permissions to objects and/or containers within this container [Clear all](#)

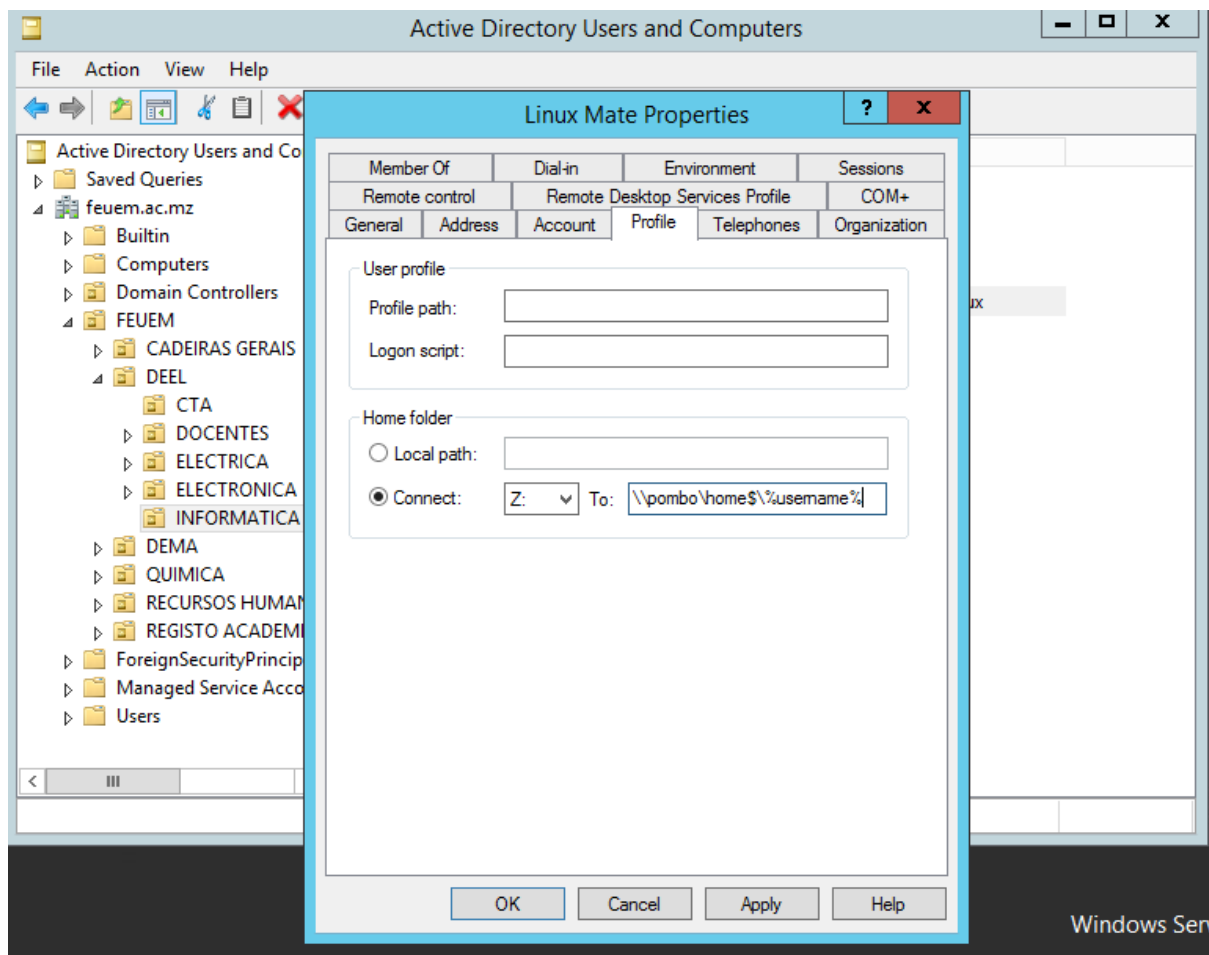

Add a condition to limit access. The principal will be granted the specified permissions only if conditions are met.

[Add a condition](#)

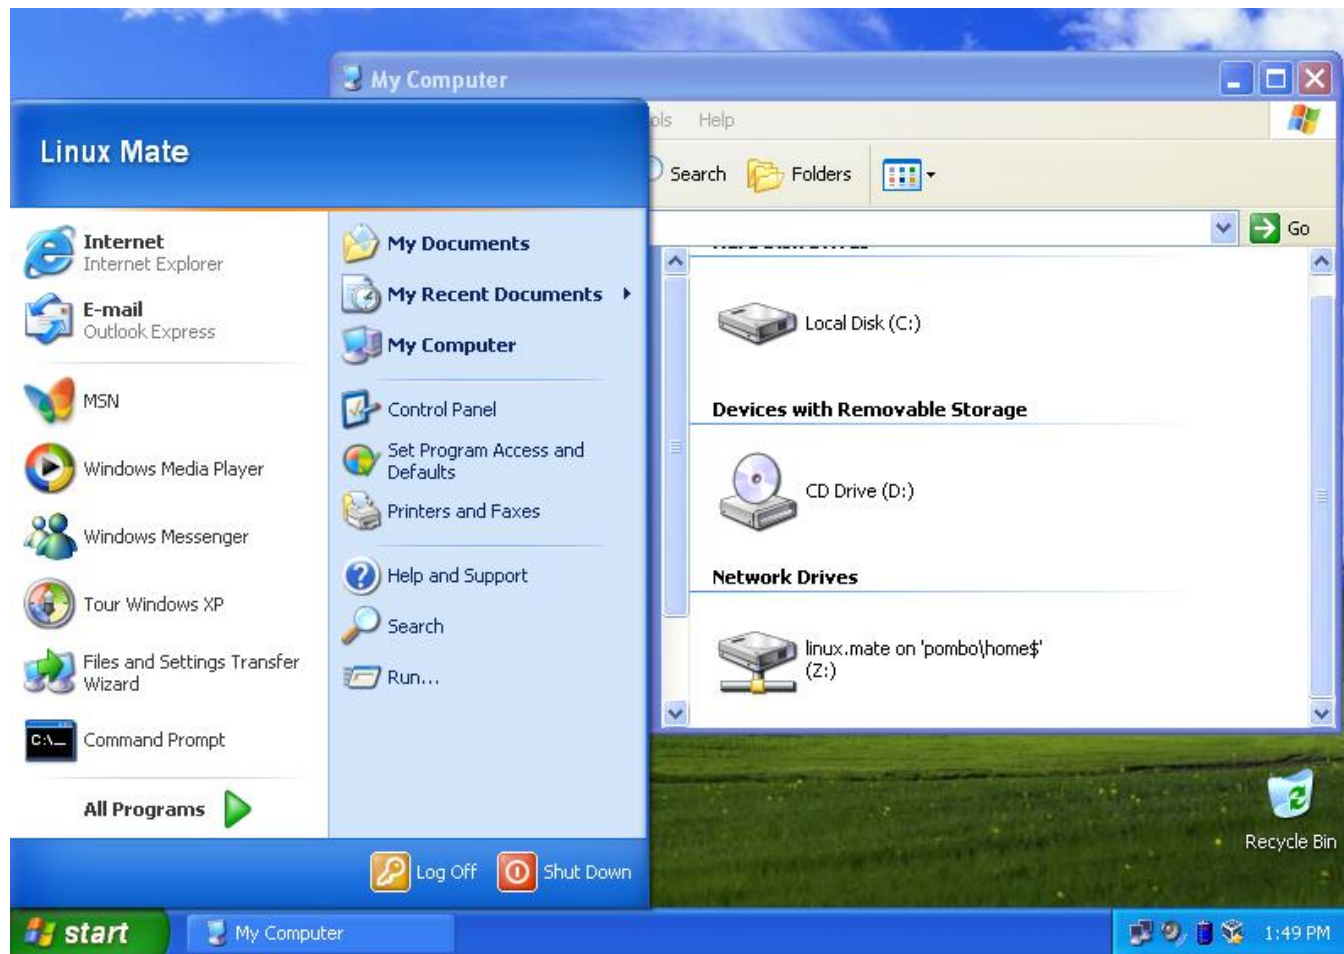

Mapear a pasta para o user Linux Mate

Configurar o perfil do usuário

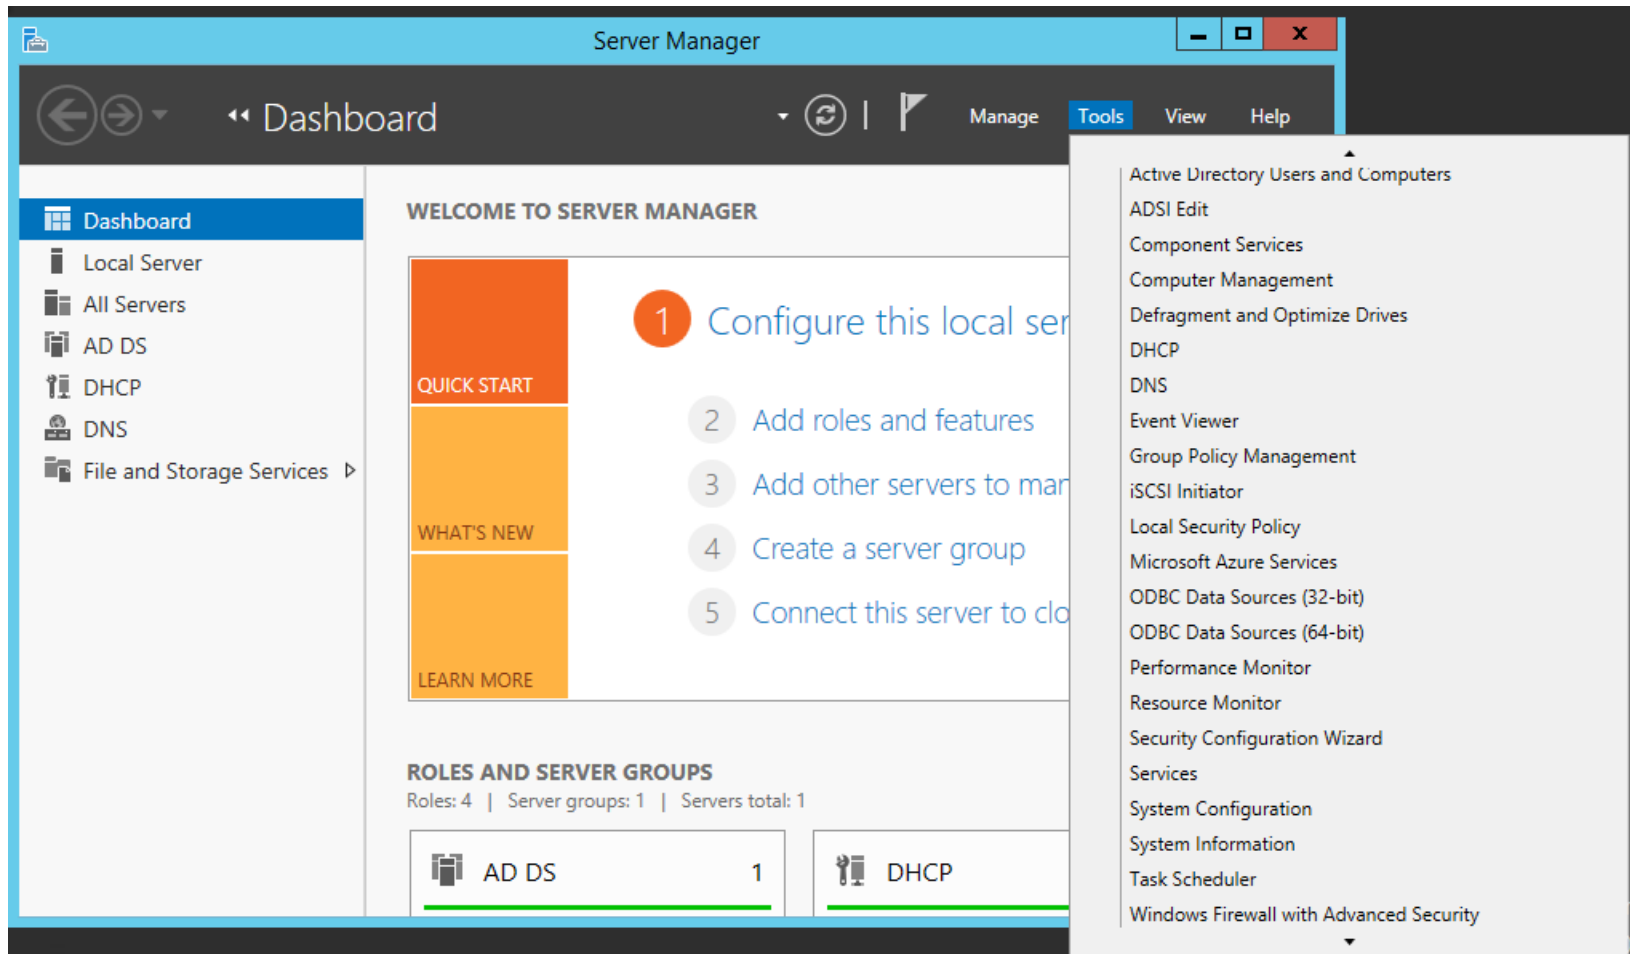

Perfil Configurado com sucesso

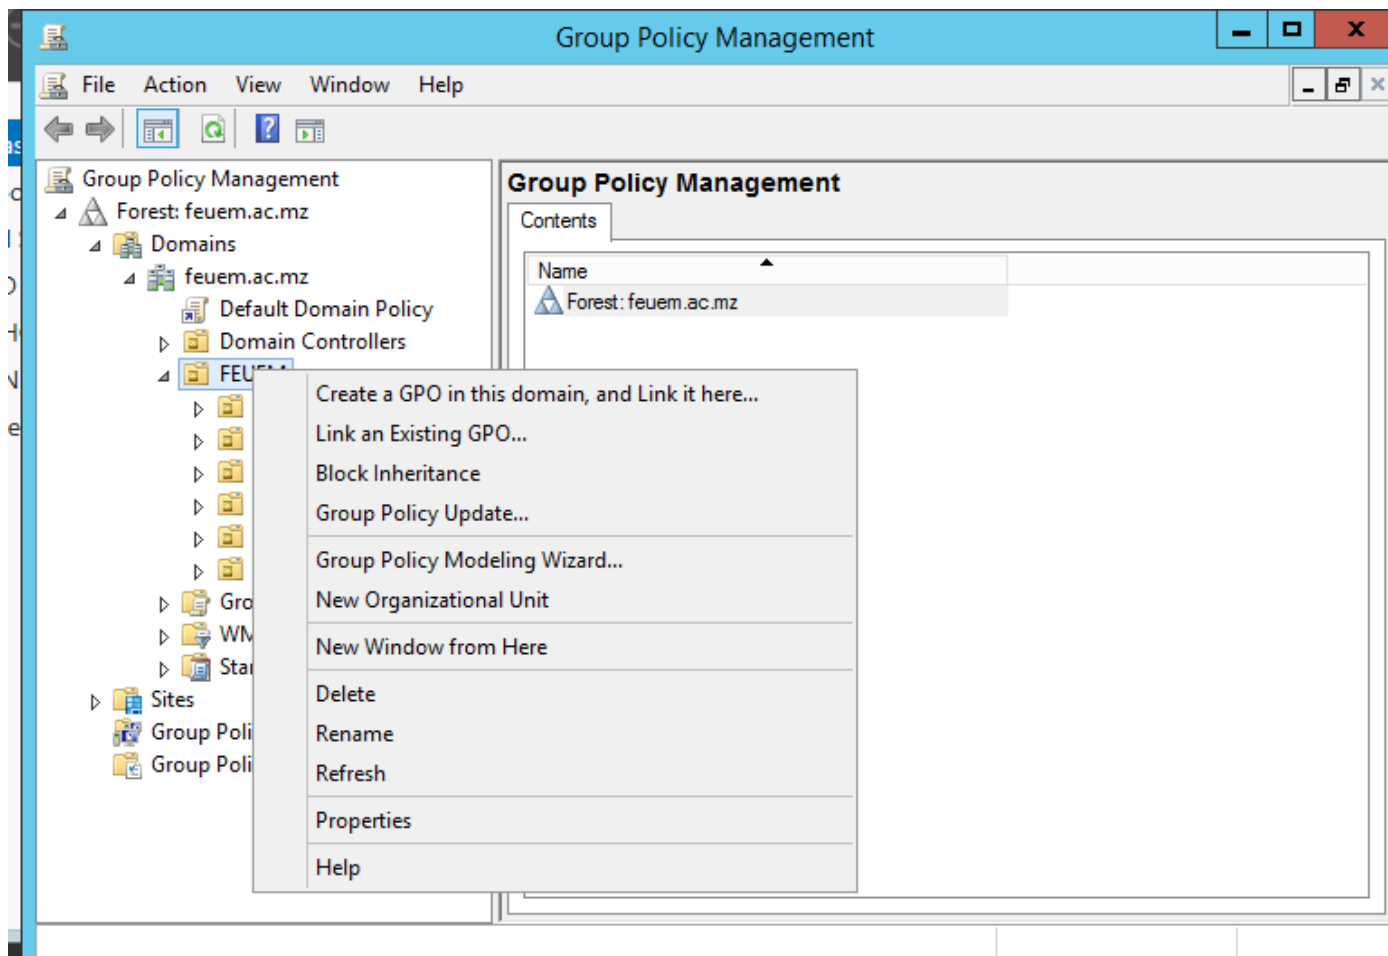

E se tivermos 1000 Usuários ?

- Como configurar?
- O administrador seria capaz?
- Que implicações teria?
- Como Superar essa limitação?

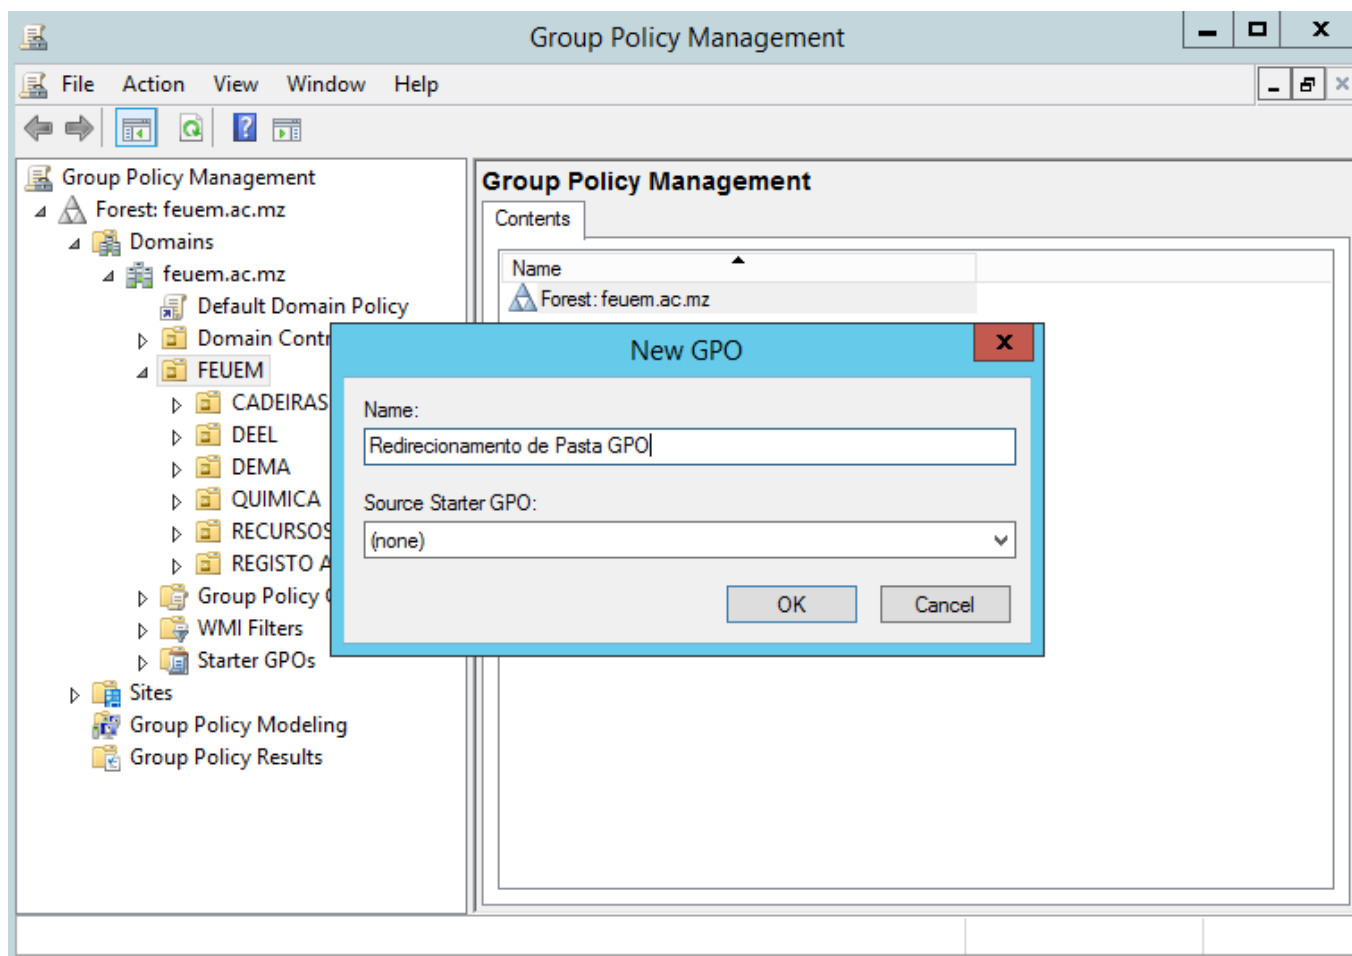

Criação de GPO

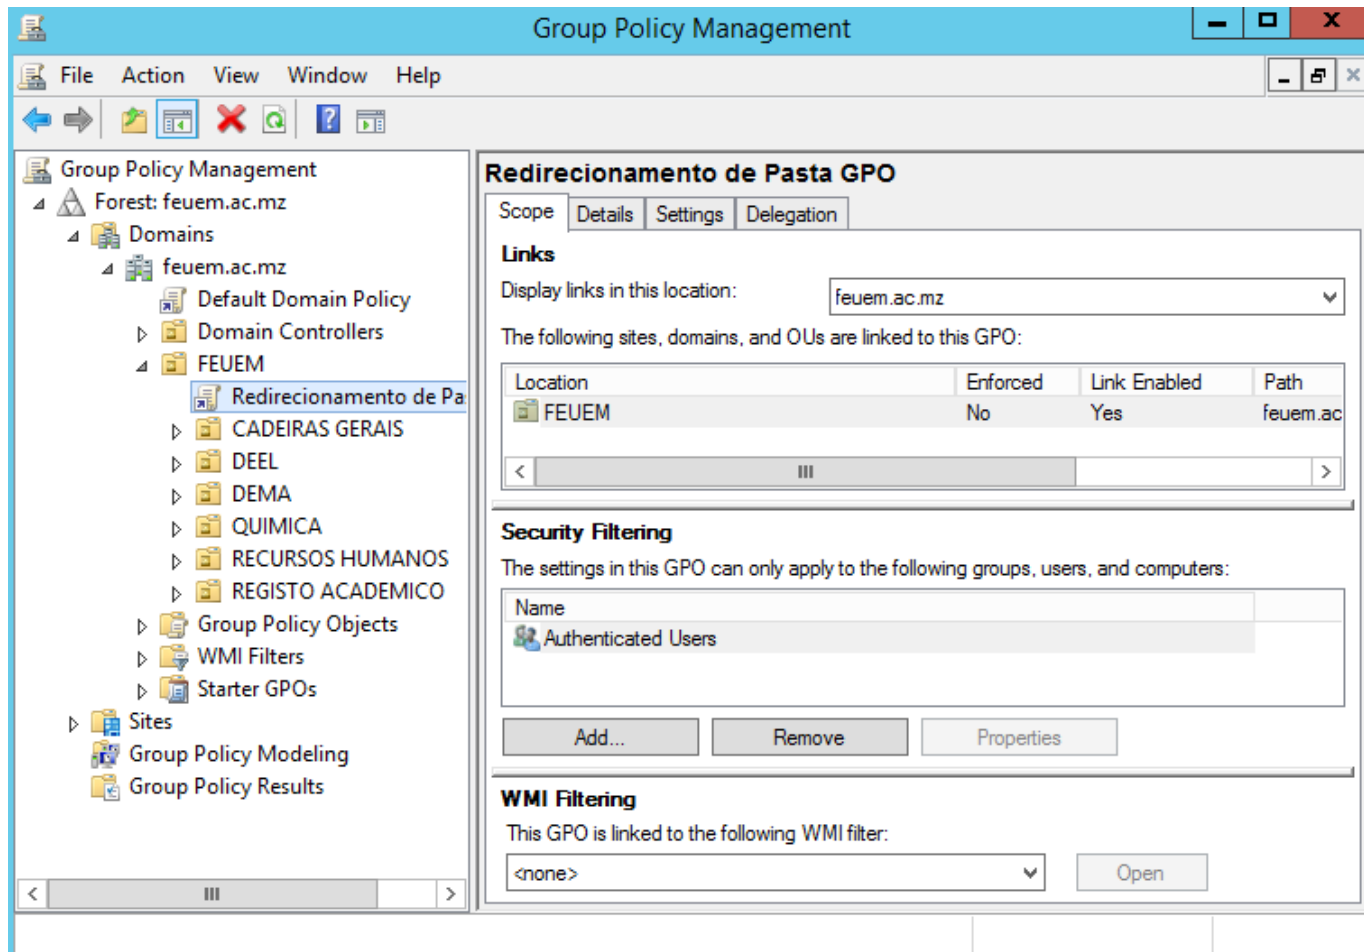

Criação de uma GPO no domínio FEUEM

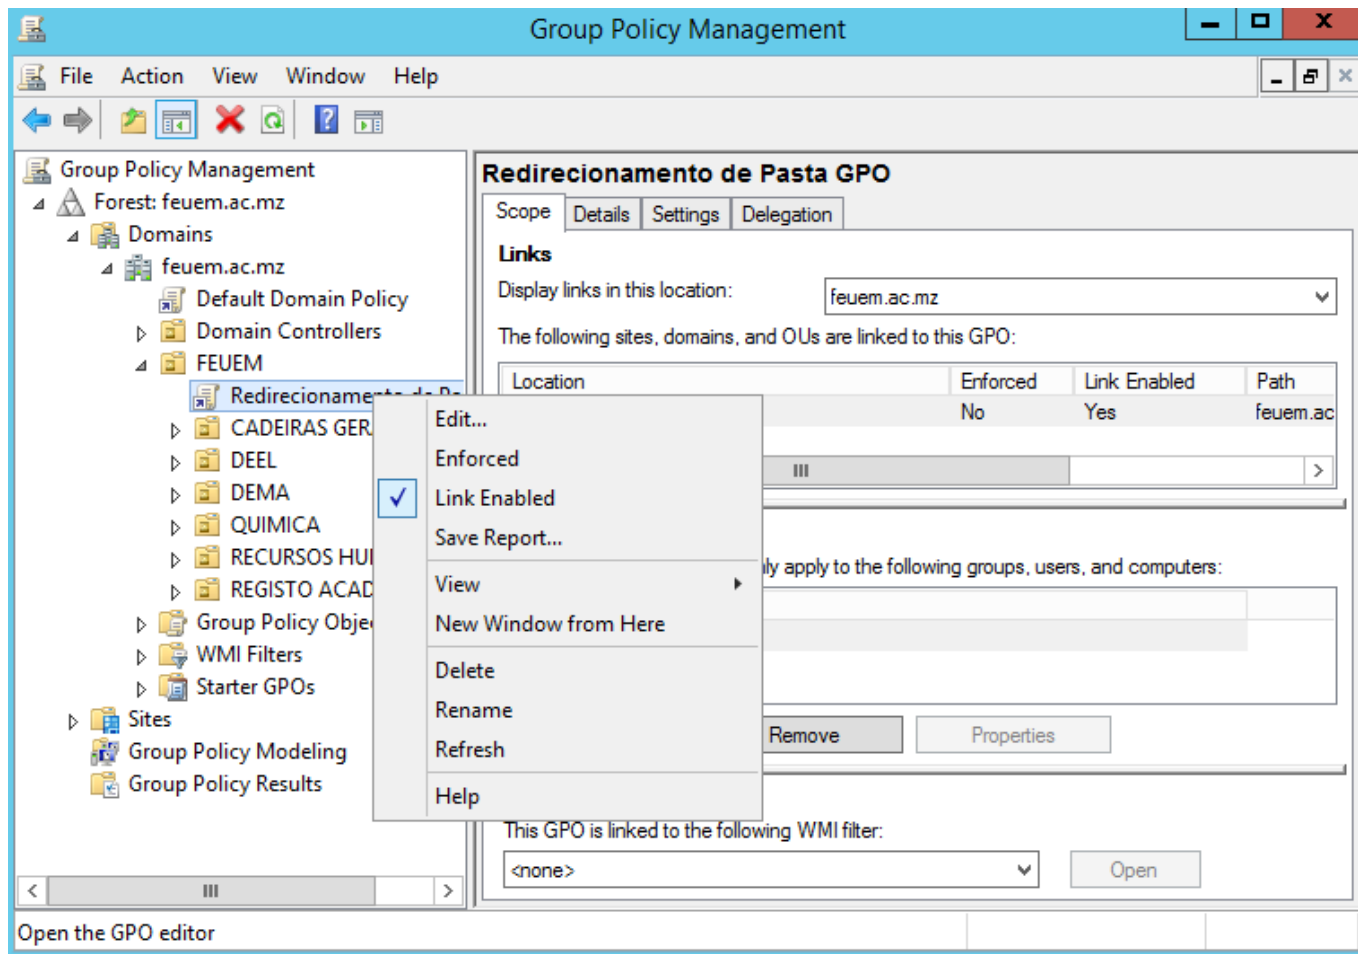

Nomeação do GPO

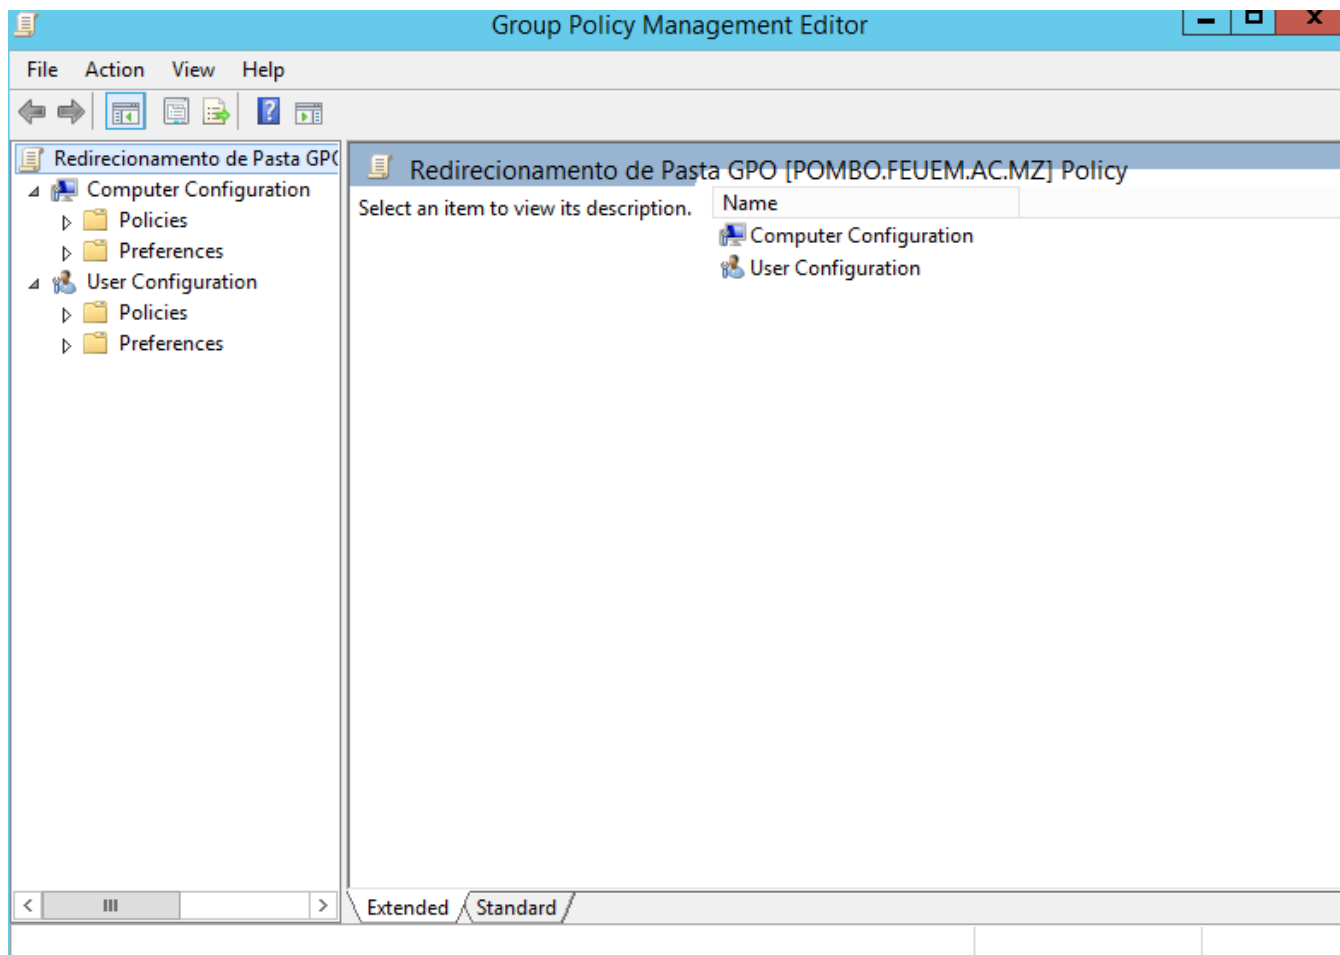

Descrição da GPO

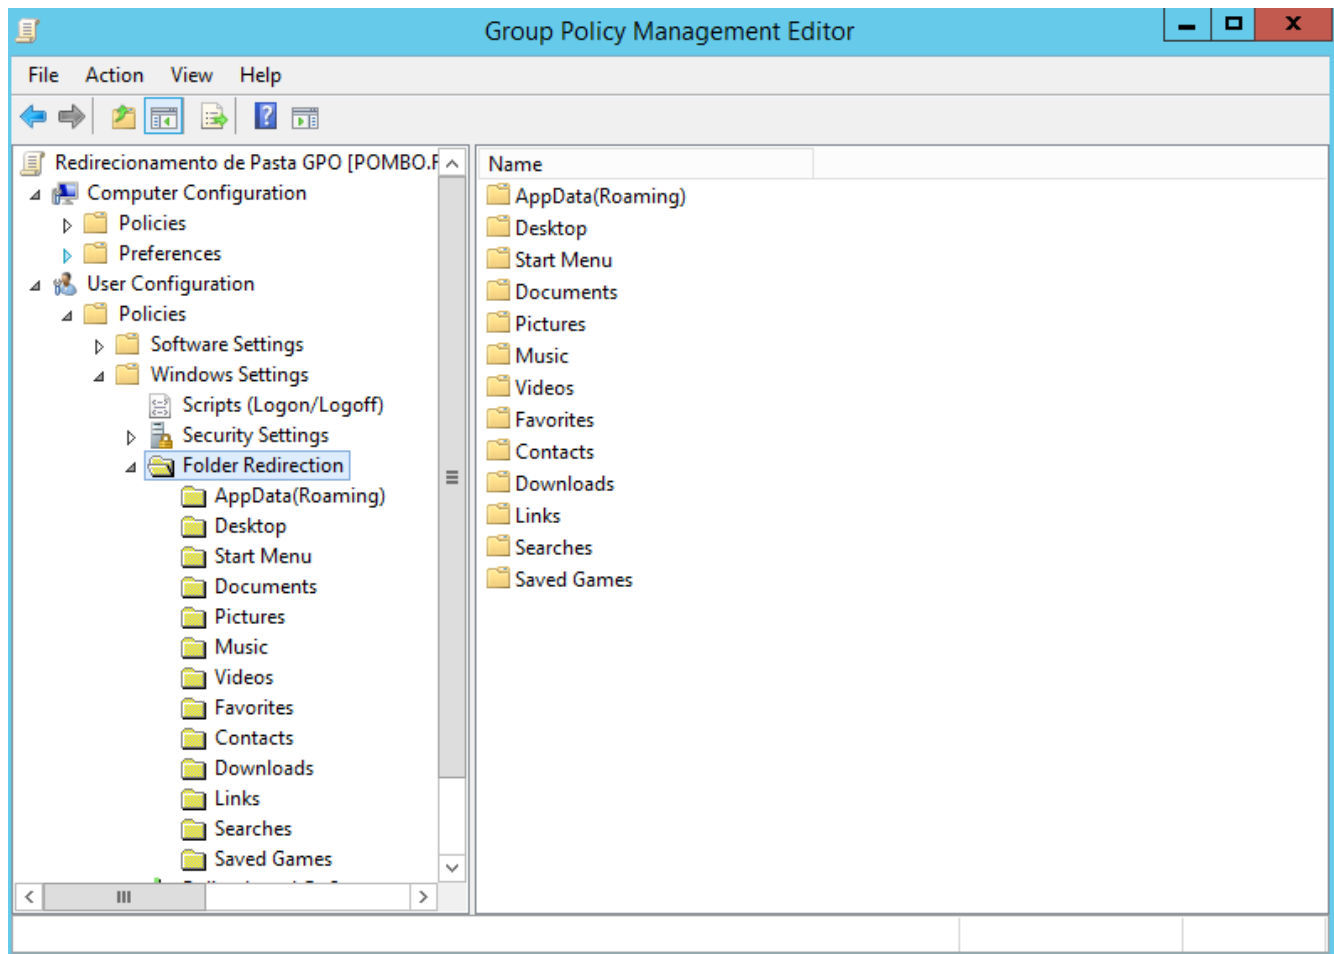

Editar a GPO

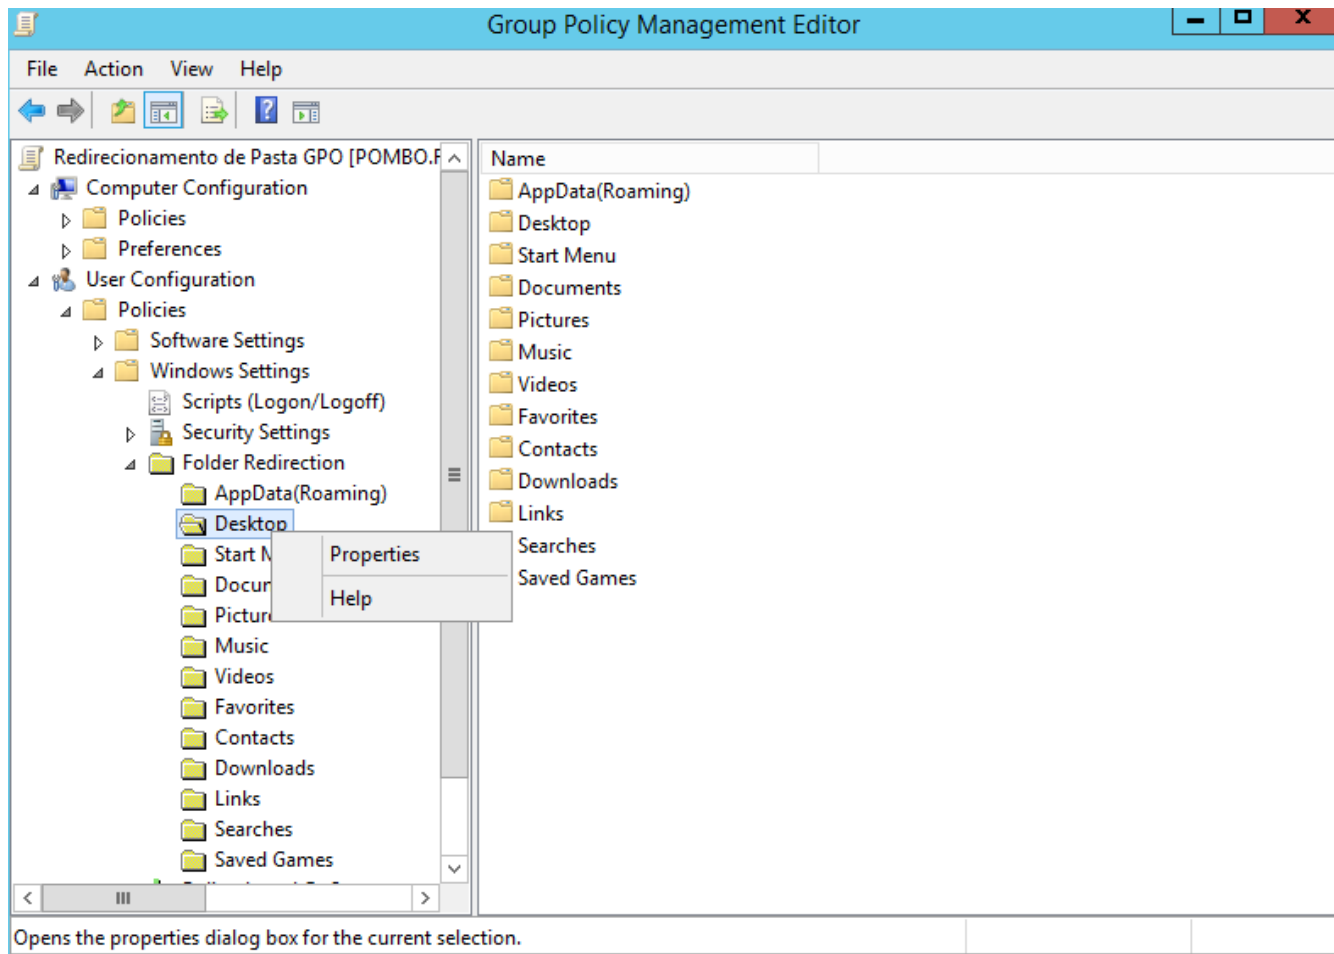

Gestão da GPO

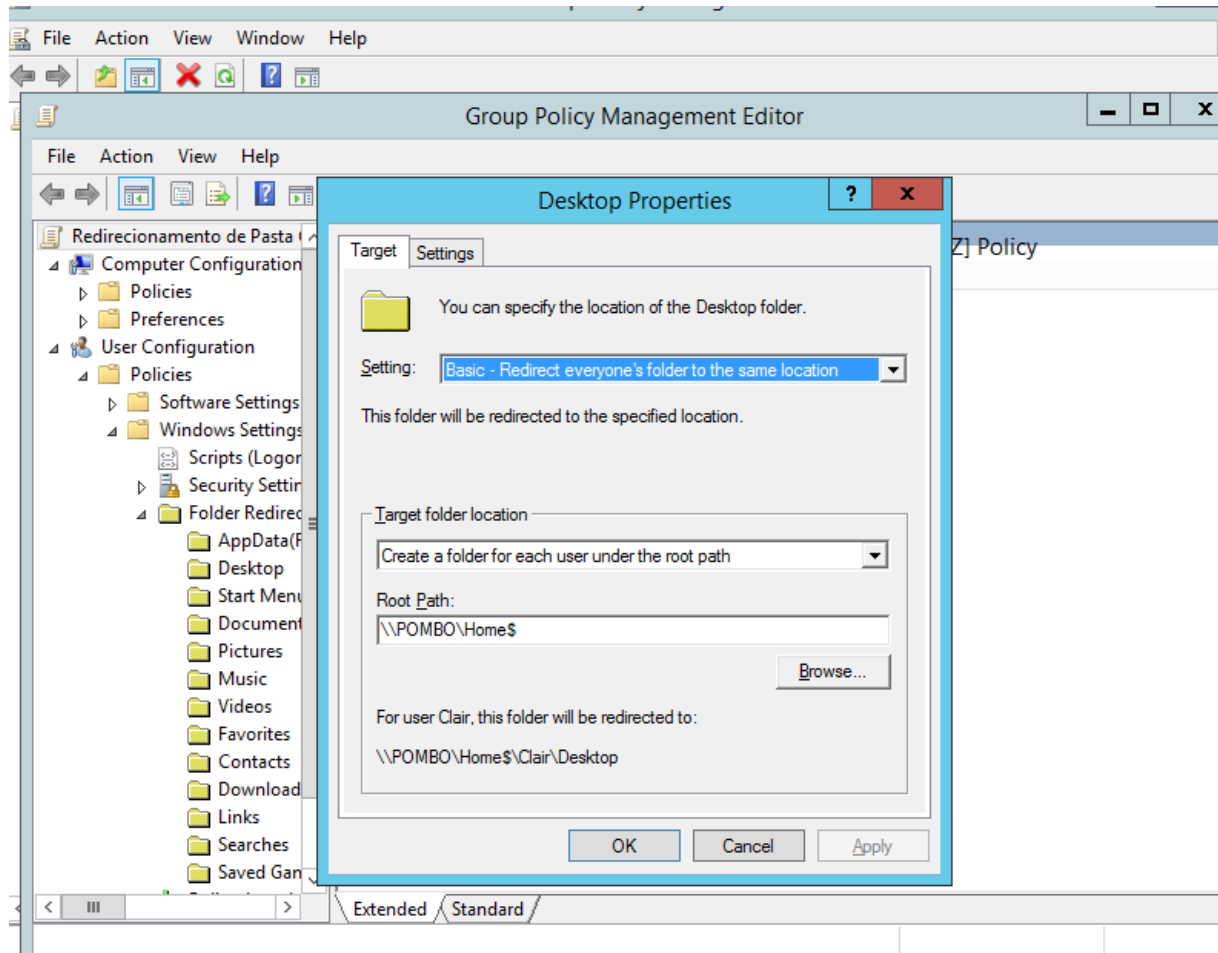

Configuração da pasta de Redirecionamento

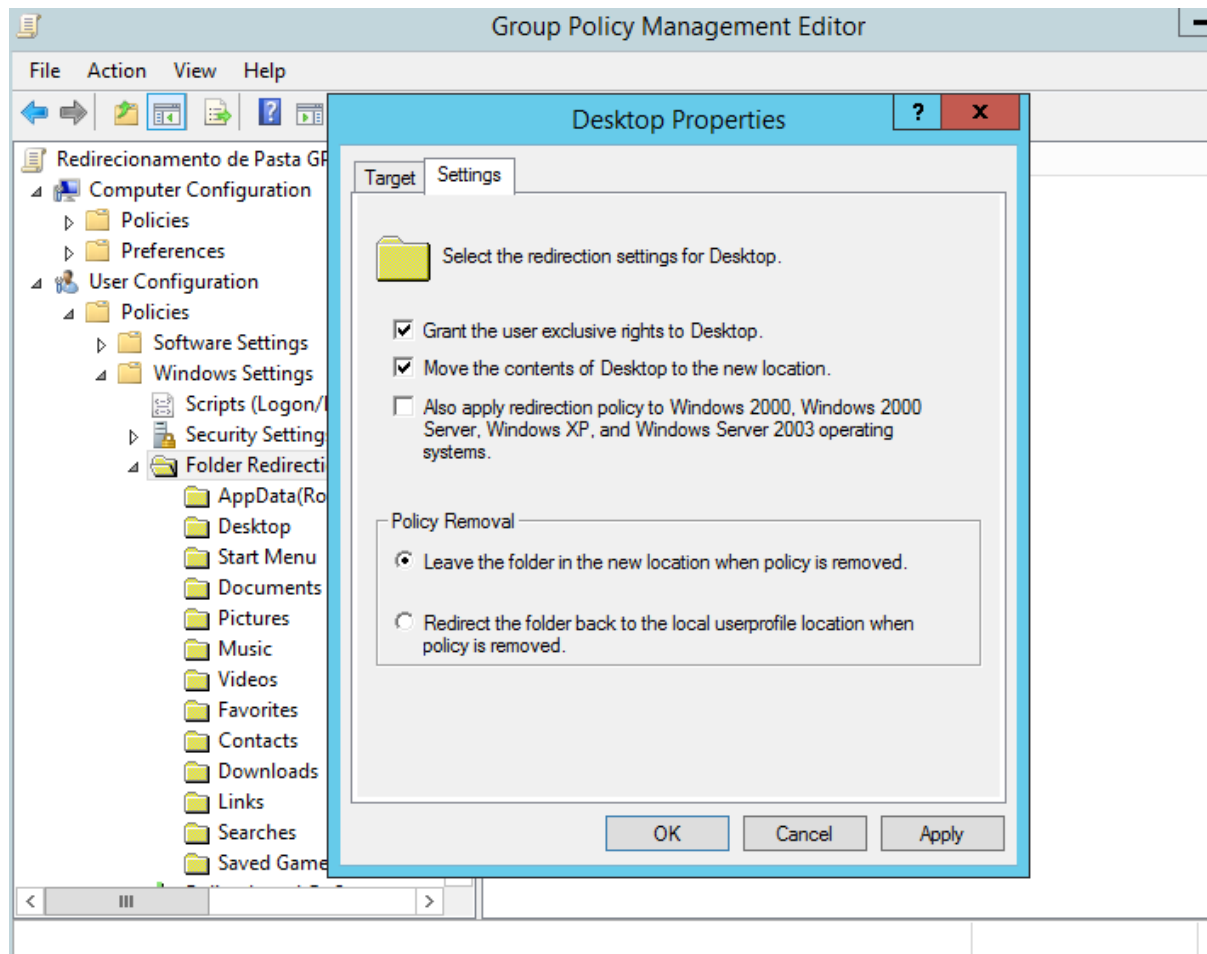

Propriedades da Pasta Desktop

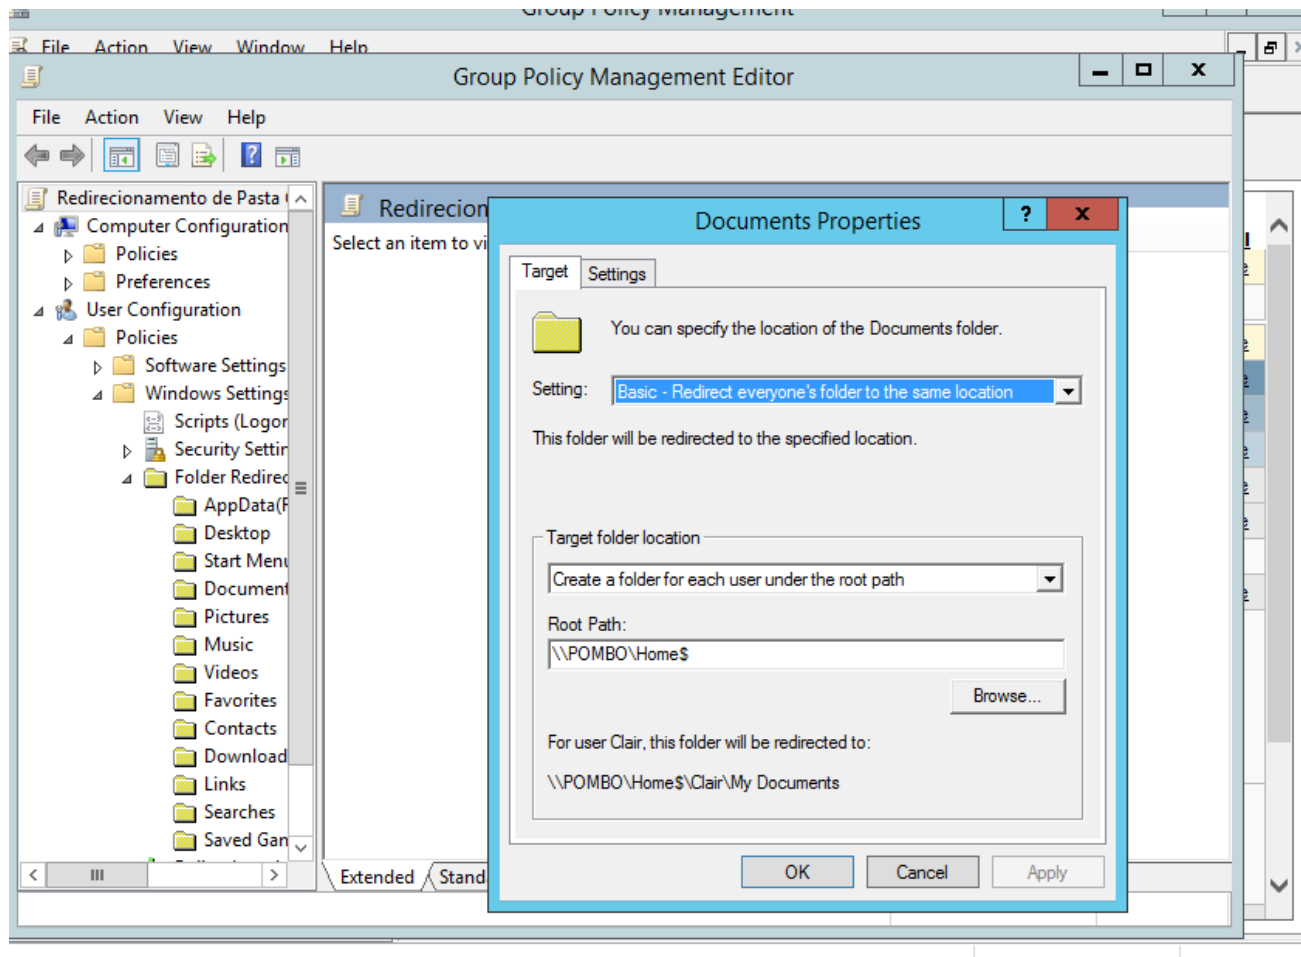

Configuração das Propriedades da Pasta Desktop

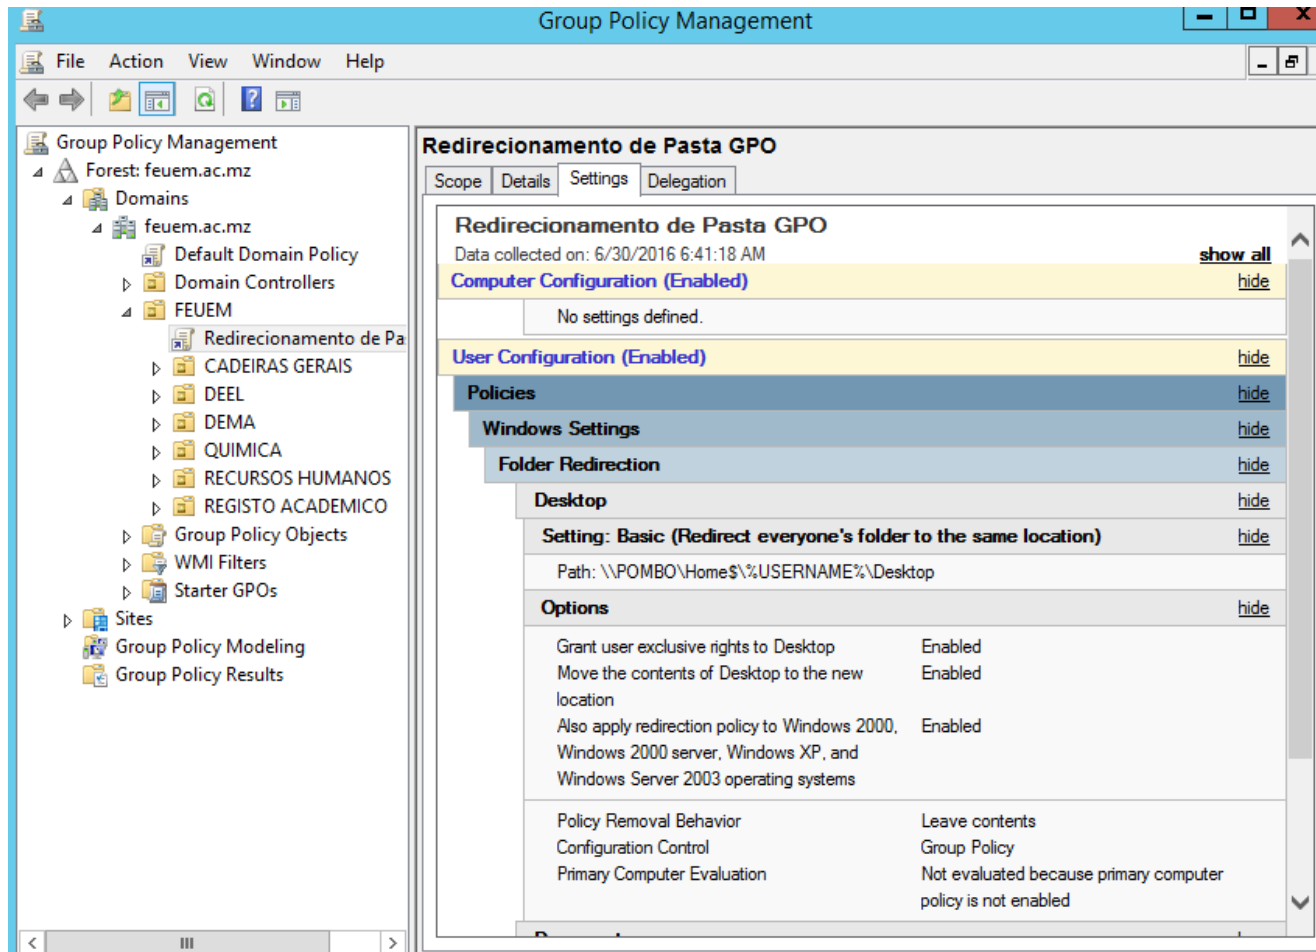

Settings (Propriedades do Desktop)

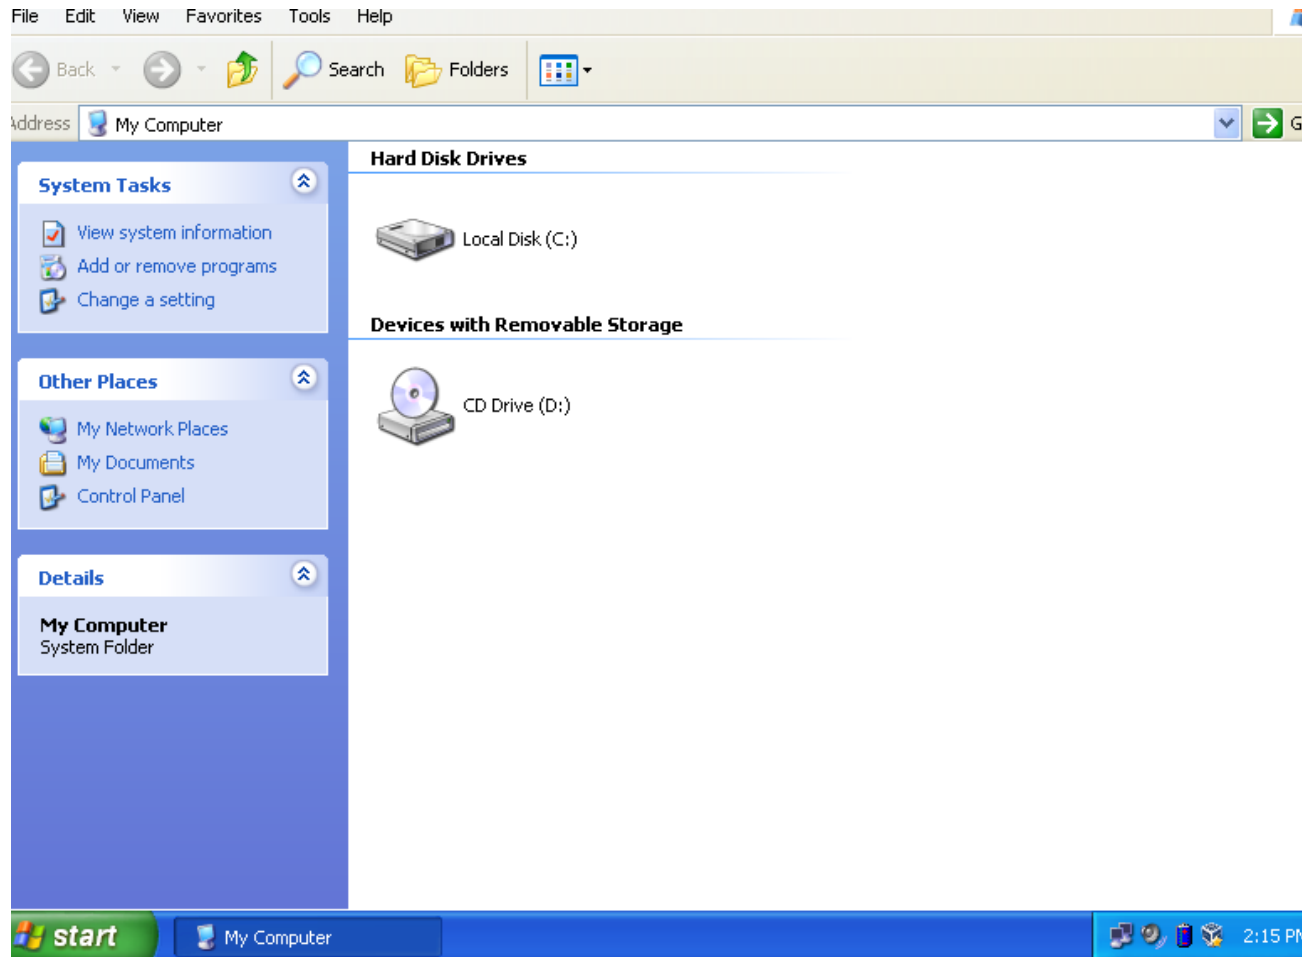

Executar a mesma configuração para a Pasta Documentos

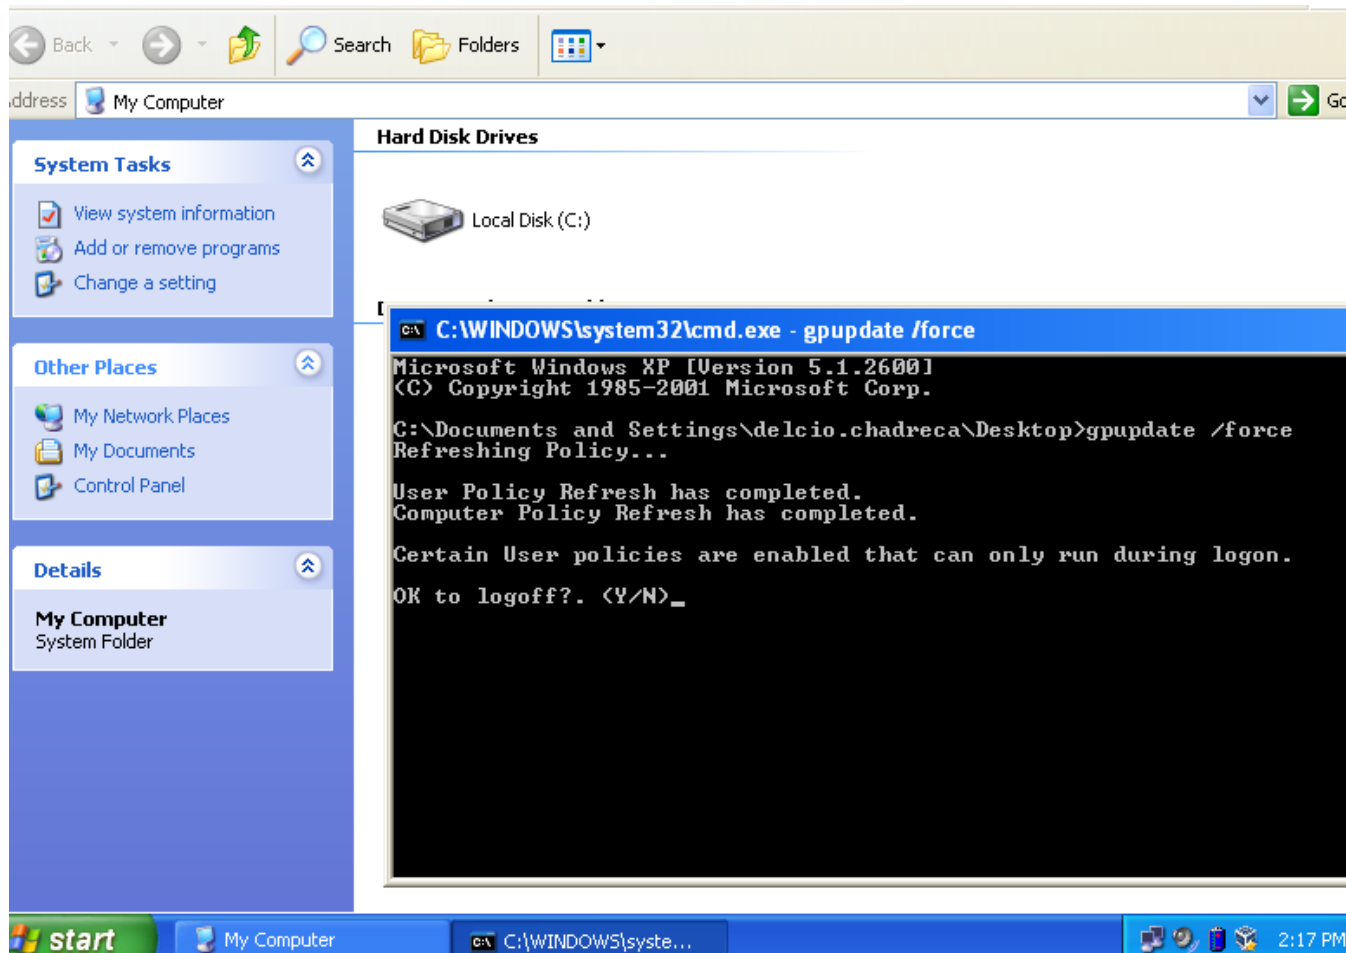

Verificação dos settings das Politicas efetuadas

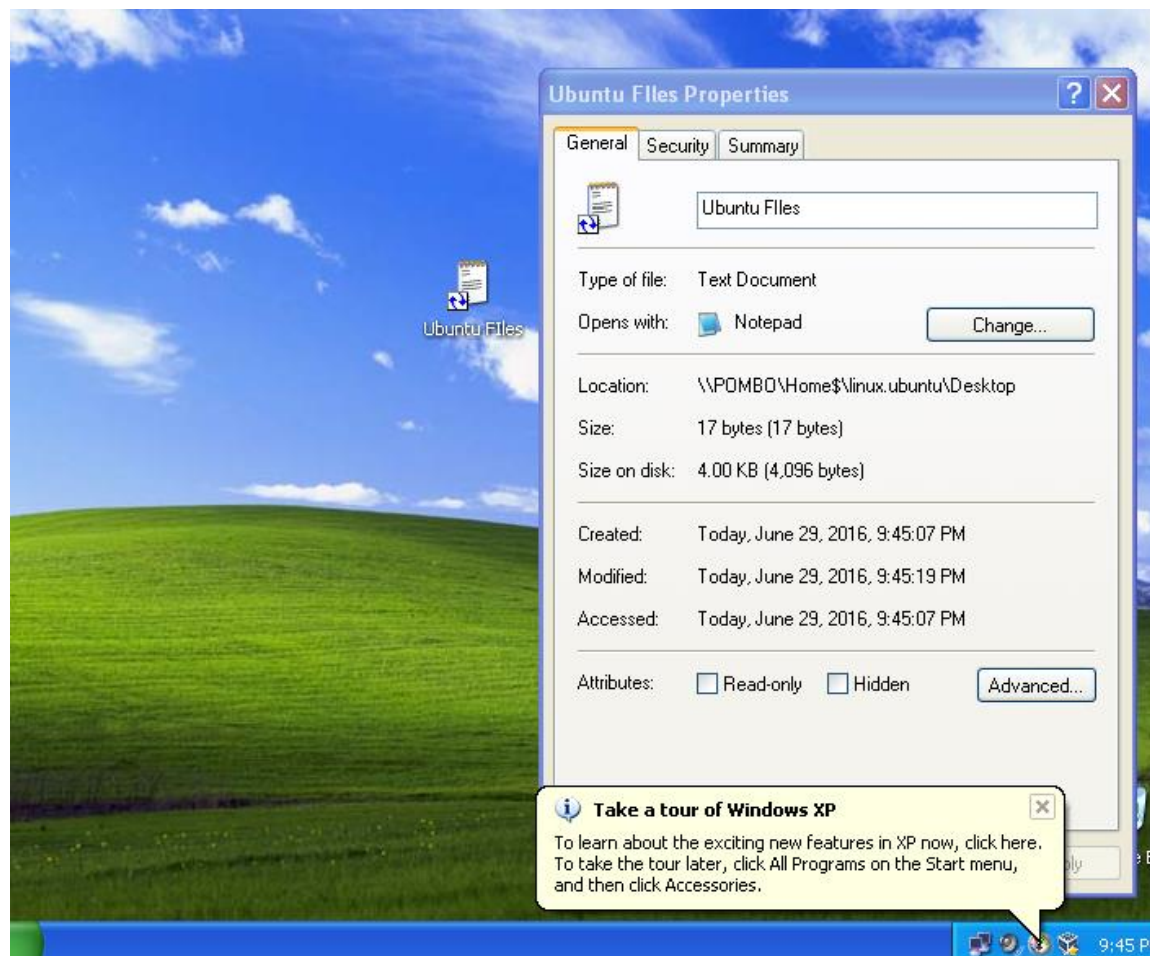

Testando a GPO

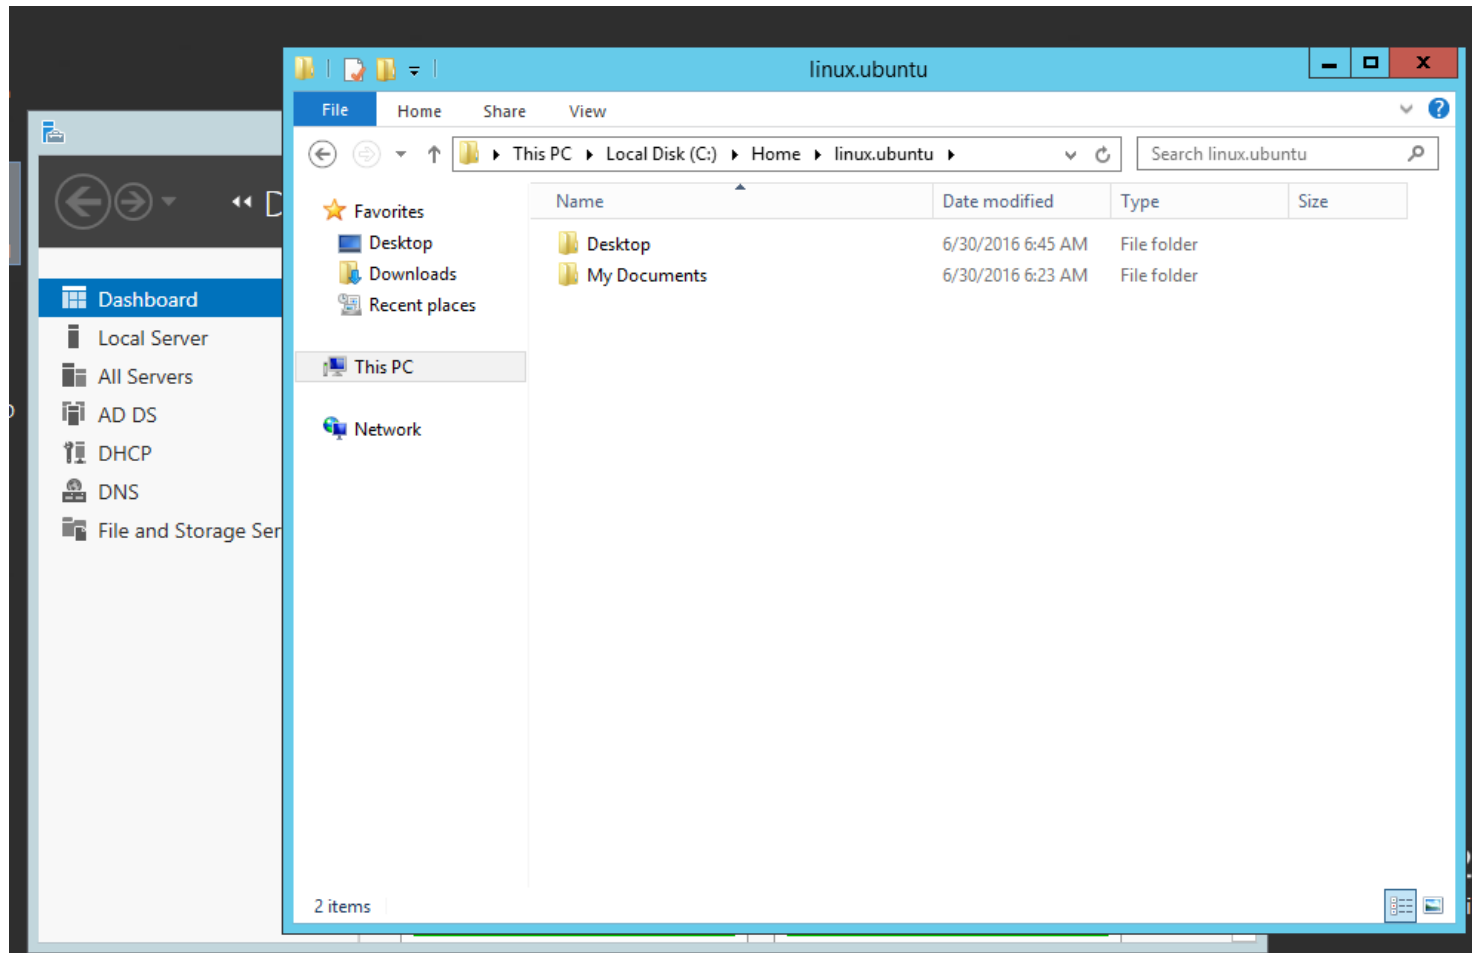

Forçando a Aplicação das Politicas no Usuario

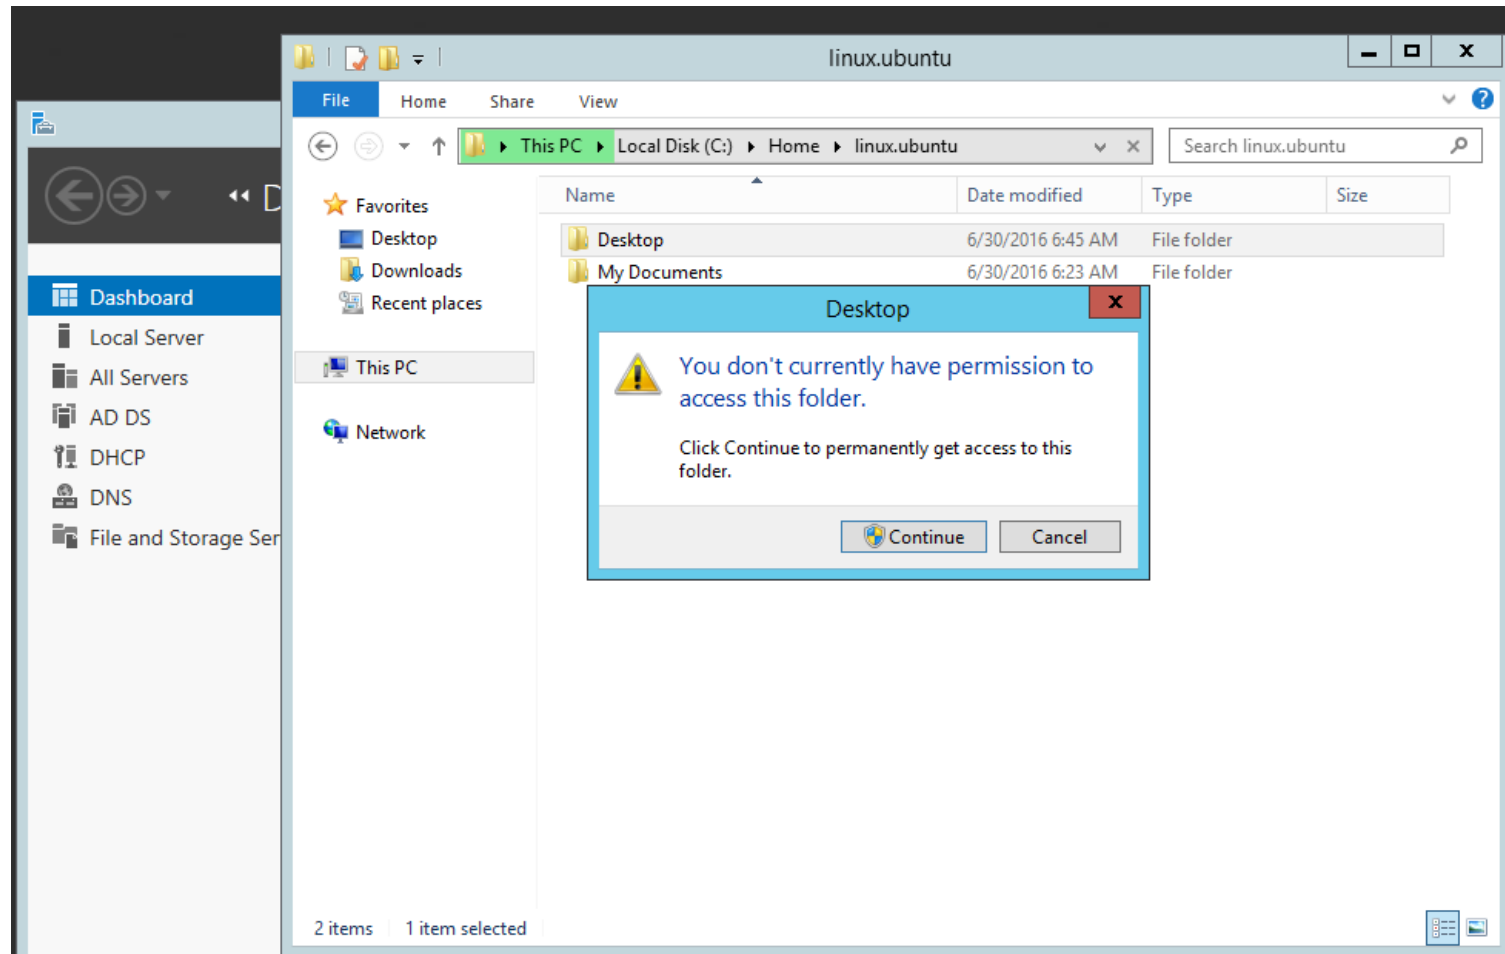

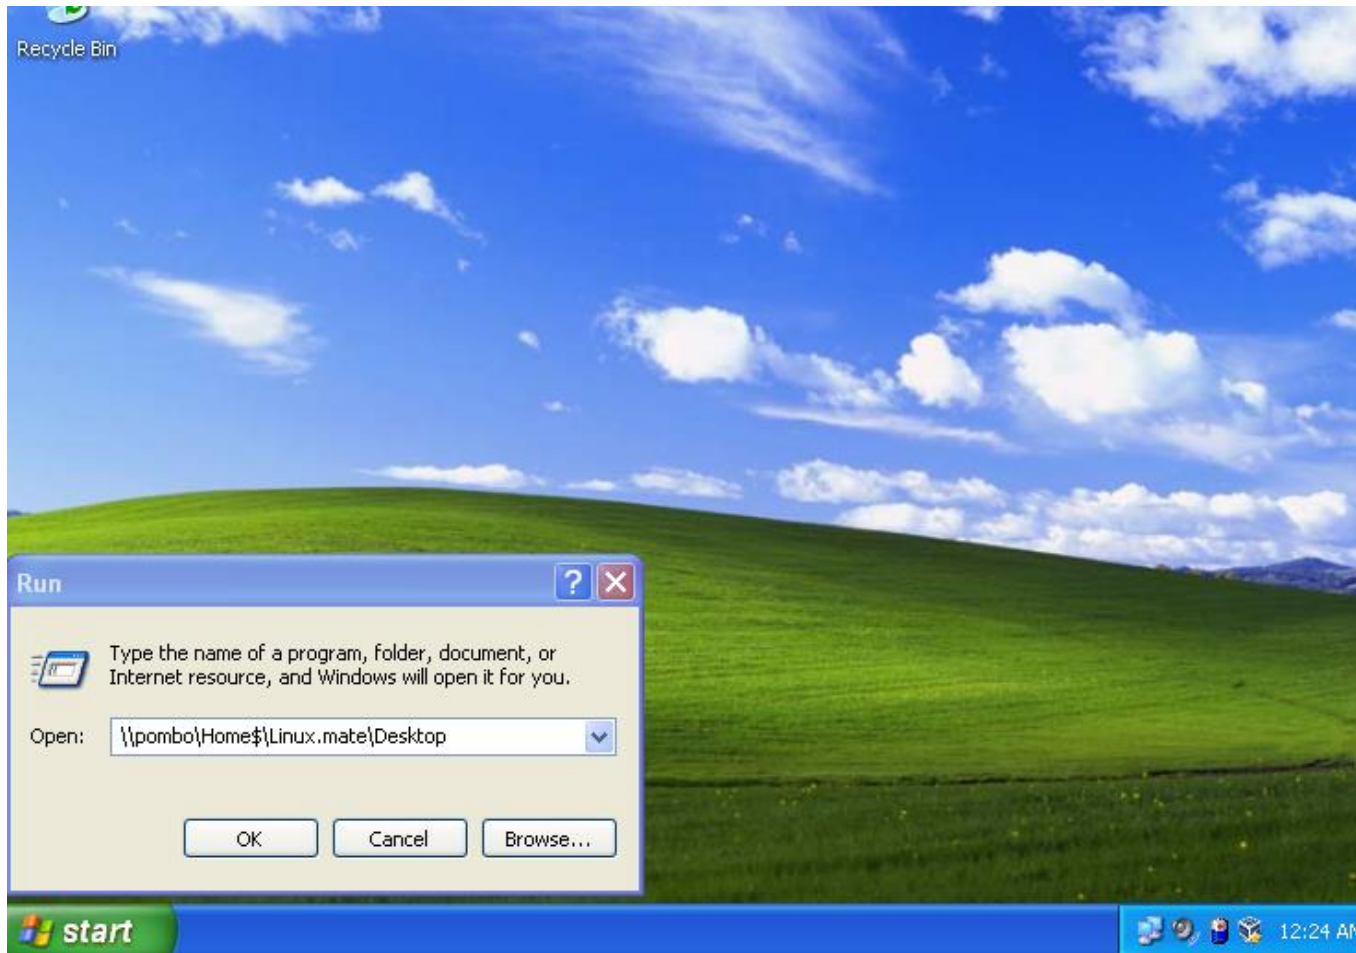

Pasta Base no Servidor

Acesso Negado a Pasta Base

Acesso Direto a Pasta Redirecionada

Questões

- Defina por suas palavras o que é pasta base, e explique o seu funcionamento
- Comente ou fale do GPO
- Diga qual a importância ou relevância do uso do GPO
